Meditation: Toys and Forces Gallery – 20:16 to 20:26

Kay senses the slim man, seemed curious as to why we were there; Kay felt he was observing us almost enjoying the company. Kay first felt him in front of her, then slightly to her side, then later behind her at which point Kay felt he was too close. Kay then began to get a bit of a headache, so she then concentrated on blocking out any connection.

Claudia was standing behind the Newton's Cradle at the far right of the room, at the beginning of the meditation, she was aware of voices whispering, they sounded as if they were on her right hand side but slightly behind her. But she could not make out what was being said

Claudia also had a pain in her chest on the right hand as if she had been stabbed with something long and thin, like an ice pick or a letter opener.

20:25 (approximate time) I felt something behind me, it touched me quite gently on the solar plexus/mid spine, it was cold and thin. Andy feels a cold draft moving around his legs after asking in his head for spirit to make the area he is standing in colder

Vigil 1: Archaeology Gallery (Rear) – 20:42 to 21:15

Claudia was sitting on the floor facing the mirror and Kay is next to her.

Andy is sat on a wooden chair facing down the corridor towards the library door

20:28 Claude has a very vague impression of a man, standing near the door to the laundry. She senses that he is standing watching myself and Kaye for about a minute.

20:42 Claudia gets a strong feeling of loneliness, sadness possible grieving. She has the name of Susan.

20.42 Kay sensed the slim man again. Standing and watching Claudia and her. She heard the words "I do not want to be on my own anymore"

20:44 Claudia is picking up anxiety; she can sense her pacing up and down in the room. She is possibly mid to late 20's, wearing a long pale coloured dress, with a small bustle at the back, she has long dark hair which has been put up. Claudia feels that this is the era of mid to late Victorian. She feels that she is waiting for someone or some news.

20.45 Andy hears banging sounds coming from the direction of the fire door.

This is followed by banging sounds heard coming from the staircase.

INVESTIGATION REPORT – Team 1

Investigation Site Letchworth Museum

Investigation Date 10th October 2008

- 20.55 Andy observes a figure goes past the door in the library and then light goes out (staff leaving?)
- 21.03 Andy hears voices heard on the stairwell
- 21.05 Andy observes the recorder left by Bill flashes on then off
- 21:05 Claudia senses a child in the room to the left of her; she is sitting curled up in what would have been the corner of the room. She is crying because the woman has told her off.
- 21:07 The child is very scared, Claudia hears the phrase “I want my mother” repeated over and over in my head.
- 21.15 A sound like a heavy footstep is heard in the children mini museum area by Andy

Vigil 2: Archaeology Gallery (front) – 21:34 to 22:15

Andy has nothing to report in this vigil apart from the noise in the street outside. Andy is sat on a wooden chair to see if he can pick up any vibrations from the chair itself.

Kay and Claudia are sat on a wooden bench further up the corridor.

- 21:37 Claudia has a headache across her temples. She feels very strongly connected to the woman. She feels so angry, she feels like screaming, Claudia thinks that if I don't, scream or do something, I will explode. She has an urge to get up and pace up and down. Claudia can see the child in the corner, she is about 9 years old, she has fair hair, and Claudia knows that the woman is shouting at her. She is blaming the child. Claudia is still very much aware of the pain in her chest which has persisted from the meditation.
- 21:50 Claudia feels a cold shiver. Claudia reports I am starting to calm down, I now feel empty and guilty, but there is a feeling of acceptance. She wants to write a letter, I can see a writing bureau to the left of me, and she is now sitting at the desk writing.
- 21.54 Kay sensed the presence of a slim man again. I thought he asked me “I want to know why you are here?”
- 21:55 The pain in Claudia’s chest finally goes.
- 22:00 Claudia reports ‘I am tired, I want to sleep, I must rest, I feel exhausted and empty’.
- 22:05 Claudia states she can smell wet wood and hear rain outside. She gets an impression of the outside of the building and it is an old cottage.
- 22.06 Kay sensed a very angry man against a female, threatening, bullying, losing control. Twice had shivers down her spine, feeling icy cold. Definitely felt uneasy.

Experiments: Toys and Forces Galley – 22:27 to 22:32

EVP Experiment conducted but there was no paranormal activity recorded.

Vigil 3: Natural History Galley - 22:57 to 23:35

At first everyone is sat on the seated area facing the stairs. Kay later moves to the wooden chair at the front of the building

- 23.25 The sound of a click is heard on the landing of the stairs

INVESTIGATION REPORT – Team 1

Investigation Site Letchworth Museum

Investigation Date 10th October 2008

23.26 Kay walks around the area taking EMF readings with no results

23:26 I can hear arguing, a man and a woman, coming from the direction of the stairs. The argument stops abruptly and I am no longer aware of the woman, but I am left with the man feeling unsatisfied, angry and bitter. I get the feeling that he is constantly waiting, for her to return so he can settle the score, because he doesn't feel that it's over.

23.29 Loud creaking sound heard from the landing area of the stairs.

23.30 The sound of glass being tapped is heard coming from one of the display cases on Andy's right. Andy is seated on the seating provided for the area.

Kay sensed nothing, felt there was something about the stairs, but couldn't say what.

Vigil 4: Toys and Forces Gallery – 23:53 to 00:30

Claudia and Kay are sat on a wooden bench and Andy is sat on a wooden chair.

23.55 Temperature reading 21°C.

00:00 Andy feels the room is getting colder and the hair on his back feels as if it is standing up.

00.05 Andy observes a small speck of light seen near the table in the middle of the room

00.10 Andy feels the room has a warm feel to it.

Kay reports that; Not long into the vigil I first heard a tapping noise that I did not pay much attention to. I had hold of the EMF detector whilst in this room. Earlier I had walked around the Natural History room and detected absolutely nothing, however 5 minutes into our vigil in the toys and forces room the lights on the meter flicker consecutively three times, shortly after I heard one on the balls click as if knocking against each other. Just after that Andy asked if he could have the light meter. I had no further experiences after that.

00.14 EMF reading taken but nothing to report

Claudia has no paranormal experiences in this room
