

INVESTIGATION REPORT – Team 4

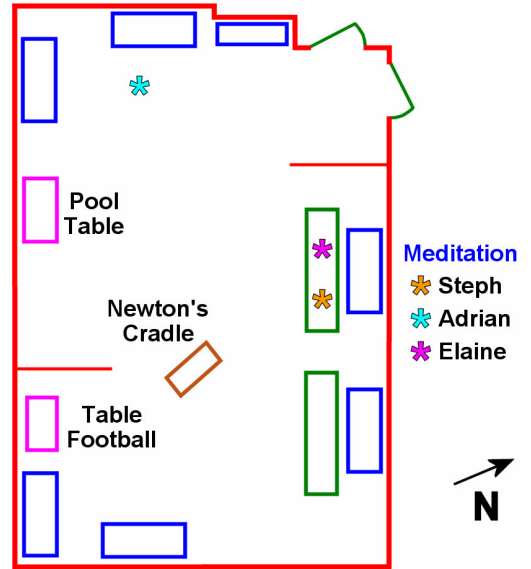

Investigation Site	Letchworth Museum
Investigation Date	10 th October 2008
Report By	Elaine Ellis
Team Members	Elaine, John, Richard

Pre-Vigils

John found the toys & forces room colder than the rest of the building.

Meditation

Elaine sat on the bench next to Stephanie as shown in the drawing on the right. Elaine found it hard to breathe like someone was kneeling on her chest. Elaine had a little girl holding her hand. Richard was not present for the meditation.

Vigil 1: Natural History Gallery – 20:35 to 21:15

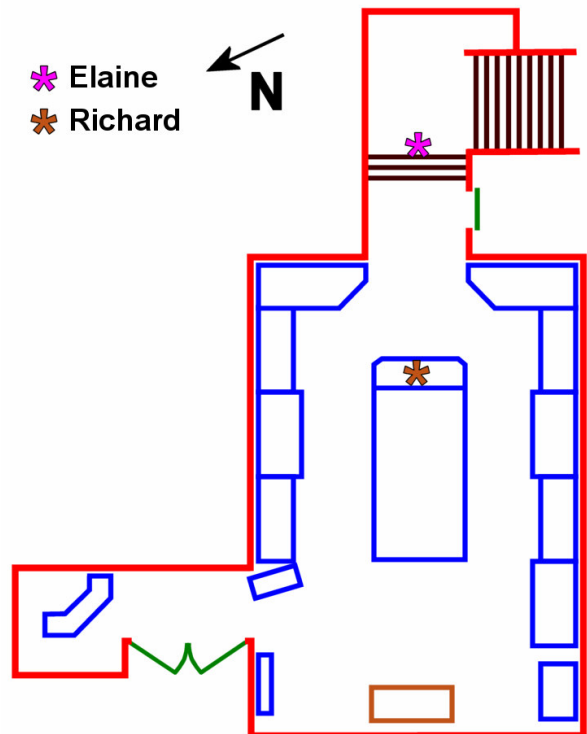

20:50 Elaine sat on the first 3 steps (shown in the drawing below right) she has the feeling that there is a man on the stairs pacing up and down.

20:55 On Elaine's right hand side there is a door leading to a storeroom she sees someone behind the glass.

21:05 Richard keeps hearing repeated bangs from upstairs sounding like someone was walking around.

21:10 Richard heard a voice clearly in his left ear saying "Who's that over there?" looking over to Elaine sitting on the stairs.

21:11 Elaine sees an oblong orb coming towards her on the floor from where Richard is sitting.

Vigil 2: Toy & Forces room – 21:25 to 22:15

21:36 Elaine hears a rustling noise to her left where the children's pram and teddy bear is.

21:40 Elaine hears the rustling sound again but this time it is behind her, Elaine moved and asked Richard if he would sit there to see if he could pick up anything.

21:43 Richard got a cold breeze through his ankle while sitting on the first bench.

21:44 After Richard moved from near the entrance to the bench, he felt the constant feeling of unease in the room especially the furthest away from the door.

INVESTIGATION REPORT – Team 4

Investigation Site Letchworth Museum

Investigation Date 10th October 2008

21:45 John has a cold spot to his left which last about 5 minutes then disappeared Richard & Elaine both took pictures but nothing showed up.

22:04 Elaine can see a little girl standing behind Newton's cradle aged 6-7 yrs, she had long brown curly hair and wearing a white smock dress, was this the little girl holding her hand during meditation?.

22:08 Richard notices a leaning black shadow in the corner leaning over the white table.

22:13 Elaine can see a dark shadow standing in the far right hand corner, manly like shadow, not a nice person he wants us out.

During the vigil John's eyes are sore; he only gets this when he has hay fever. After coming out of the room John was ok.

At the end of the vigil John, Richard and Elaine went over to the corner where the dark shadow was seen John and Richard said there was a definite cold spot.

Vigil 3: Archaeology Gallery – 22:55 to 23:35

23:05 In the first initial 10 minutes of the vigil Richard felt a cold area coming from the cabinet in front of him (Richard was sitting in the children's chair), after that the room felt less oppressive and quiet for the remainder of the vigil.

23:06 Elaine was sitting round the corner from Richard; an oblong orb came from where Richard was sitting past her it was cold.

23:25 John decided to lay on the floor, I had a distinct feeling that someone was kneeling over me telling me I shouldn't be doing that, I then placed my hands above and there was a huge cold spot above me which I found interesting as I myself was very warm.

Vigil 4: Archaeology Gallery – 23:50 to 00:30

Nothing to report.
