Thundridge, Old Church

Pre-Vigil

When standing on the path, Richard sees a shadow on the right side of the path up ahead (towards the church). He described this like a vertical bar which moved slightly then disappeared.

As Steph was stood on the path looking towards the direction of the church she sees white sparkling lights where the path bends to the right.

Tewin, St Peter

Vigil 1 – 22:23 to 23:05

22:35 Temperature +7°C.

22:41 Steph sees a blue/white shimmer, quite large in size, at the bottom right of the bush closest to the church.

22:48 Steph picks up the name *Emma* very strongly.

22:51 Steph feels someone is standing behind her and Richard.

Richard sees what looks like railings between the memorial and the bush to the right of it. He then sees a head and shoulders of someone who appeared to shuffle from the bush to the memorial (right to left). He reported that the figure seemed to do a double take in their direction. Within approx 10 seconds, Steph sees a dark figure walk between the memorial to the bush (from right to left); going behind the bush out of sight. Both accounts were seen before they were reported to each other.

Richard sees a blue light moving from left to right in the area between the memorial and the bush.

23:00 Richard sees a small person standing by the memorial and appears to be stooped over.

23:05 Steph sees something dark on the floor between the memorial and the bush to the right. She notes that it looks like someone sitting on the floor.

Richard sees something very small (tiny) and just off the ground that appeared to be hopping around. Discussed that this could be a small animal of some kind.

Vigil 2 – 23:17 to 23:55

23:17 As Richard is setting up his camcorder; Steph gets a sweet smell like talcum powder. She asks Richard if this could be from him and he says he is not wearing any aftershave or anything else that would generate the smell.

23:25 Temperature +6°C.

23:29 Steph senses someone getting a blow to the head with something heavy.

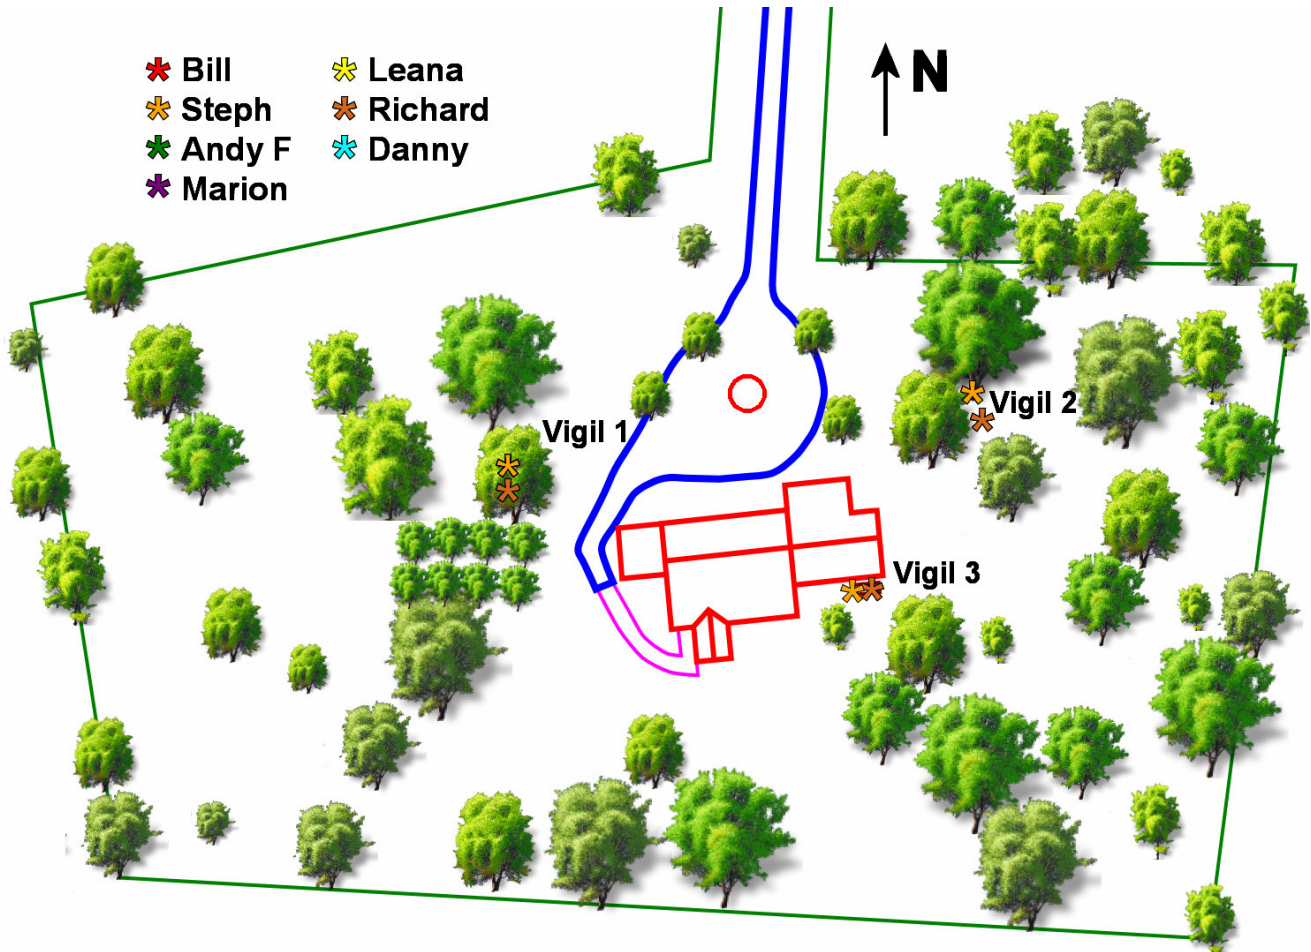

INVESTIGATION REPORT – Team 2

Investigation Site Thundridge, Old Church and Tewin, St Peter

Investigation Date Friday 13th March 2009

As Richard is discussing his earlier sightings, Steph is noting some details, turns to Richard and sees something small and dark move towards Richards left foot. She checks with her torch but cannot see anything unusual.

23:36 As Steph is looking around she looks towards the memorial area. As she looks further towards the path leading in to the church, she sees legs disappearing behind the bush walking towards the memorial. She thinks that someone has come in to the churchyard but no one appears on the other side of the bush. Steph notes that the legs were skinny and in drainpipe blue jeans with white trainers.

Richard sees a blue and red light to the left of the bush (situated to the left of the memorial) which spread both sides of the bush.

23:50 Richard reports he has been feeling dizzy for the last minute or so, more so on the right side of his head. He also reports being light headed, dizzy and groggy.

23:52 Temperature +5°C.

23:54 Steph notes that over the last few minutes she went from feeling cold to warm then back to being cold again.

Richard sees someone sitting/crouching on the flat surface of the memorial and reported that it looked like they jumped down from it with their head down.

Investigation Date	Friday 13th March 2009

Vigil 3 00.03am to 00.35am

00:08 Temperature +5°C.

00:09 Steph sees a white dot of light about 3 meters in front of her on the grass. This lasted approximately 2 seconds then it was gone.

00:15 Steph discusses with Richard that she feels this area of the church feels quieter and that there is not a lot of activity there.

Richard reports getting the colour cream followed by blue then bubbling water.

00:20 Steph hears a deep male voice over to her right. She thinks this is probably Andy. Richard says he hasn't heard Andy talking at any time during the vigil.

00:30 Steph sees a large streak of orange/yellow light out of the corner of her eye high up in the sky to the south east. It seems to go through the branches of the trees. She thinks this may have been a shooting star.

Post-Vigils

The blue/white lights seen by Steph and Richard in Vigil 1 were most likely to be an ultra violet torch used by another team member during the vigil.

Other team members were asked if they moved around during Vigils 1 and 2. Some of which did but on discussing their routes it was found that they were not the cause of the sightings by Steph and Richard in Vigils 1 and 2.
