

# **Milton Bryan, Battlesden and Segenhoe**

**25<sup>th</sup> February 2005**

## **Team 2 Report**

Andy f / Sharon S / Sam B / Jayne and David, Steph and friend, Charmaine and Elaine.

### **Milton Bryan**

Once team 2 had arrived at Milton Bryan they were divided up into smaller teams in order to cover the area twice and so increase the chance of finding anything paranormal. At the road sign area the team managed to take pictures of mysterious mists. These pictures were retaken as is procedure to see if those same mists reappeared but they did not. The team did try some EVP experiments without any success. Some members reported having strange feelings at one point in the road as if being watched.

### **Battlesden**

At the church itself team 2 had some good results not least Andy having wandered to a gate at the rear of the church heard someone clearly saying the name "Ricky" into his ear in a loud whisper then turning around to find no one was standing near him and the nearest LPS member Elaine standing some distance away. Andy did ask Elaine if she had spoken to him and she replied she had not. Sam also had a similar experience in the same area hearing a sound if someone was breathing out next to her. Three members of team 2 also felt something was not right in the church area or physically sick and refused to go back into the area. This makes the church worth a second visit later in the year. Again EVP was tried without any success. On the Battlesden road itself both Stephanie and Sharon heard strange sounds (Steph to fill in).

### **Segenhoe church**

Andy s Report only certainly another site worth second visit maybe a vigil even. Members got some very good pictures here although there was a feeling of calm. I had a feeling of calm and contentment all around the area.
