

# INVESTIGATION REPORT – Team 1

<b>Investigation Site</b>	Luton, The Biscot Mill
<b>Investigation Date</b>	4 <sup>th</sup> July 2007
<b>Report By</b>	Stephanie Lawn
<b>Team Members</b>	Stephanie, Andy

## Pre-Vigils

During the walk around, Steph and Marion were sitting in the bar and heard creaking noises as if someone was moving about near the pool tables, followed by a small cry which sounded like a woman. The rest of the team were in the cellar.

## Ouija

During the Ouija Andy was filming the experiment and he noticed on two occasions a black shape moving in the same area of the bar and in the same direction.

During the experiment period of the investigation Andy was using the Ouija board with both Marion and Beth. Although the glass did not move Andy was thinking of nothing in particular when the name Robert came into his mind and a thought “ask about Robert”. Andy asked Marion and Beth if the name Robert meant anything to them. Beth replied that her grandfather who had recently passed away was called Robert. Strangely enough Beth informed Andy and Marion that she had recently taken part in a séance and the same thing had happened there.

## Séance: Bar – 01:10 to 01:30

Steph smells fermenting fruit

## Experiment: Restaurant Area – 01:35

Steph – Restaurant Area 2 Pendulum

- 16 yr old girl
- Born 1813
- Worked on the site
- No family members worked there
- She had 2 brothers and no sisters
- (Small high-pitched noise heard)
- She is not the one making noises
- There are other spirits in the pub, who are friendly

## Vigil 1: Restaurant – 02:20 to 03:00

Temperature 27°C

Dictaphone recording in restaurant area 2

01:25 Andy conducts scrying and Steph observes.

- Andy – sees changes around his mouth. Looks like the mirror is moving.
- Steph – sees a man with shaved head, well built, round face. At one point laughing manically.

# INVESTIGATION REPORT – Team 1

**Investigation Site** Luton, The Biscot Mill

**Investigation Date** 4th July 2007

02:28 Andy's camera stops recording

Andy notices temp drop. Temperature dropped to 25°C

02:30 Steph conducts scrying and Andy observes

Steph – Sees someone frowning

Andy – sees a smile followed by a small mouth a scowl (mean face).

02:40 Andy conducts pendulum experiment with no results and Steph meditates

EMF Reading 2.45mG

02:44 Steph gets impression of children playing on a roundabout

02:49 Andy hears banging/thuds towards the Restaurant 2 area. Possibilities discussed. Car doors?

02:53 Temperature 26°C

## **Vigil 2: Cellar – 03:15 to 04:00**

Temperature 19°C

03:36 Steph feels cold blast on her right elbow when standing by the small caged room

03:40 Andy calls out. Scraping noise heard like a heavy wooden door

03:41 Andy calls out again. Steph hears short humming noises. Maybe from something electrical. Andy has a cold shiver.

03:47 Rap/bang noise heard to Andy and Steph's right on the cellars back wall.

2nd noise heard but sounded more metallic. Andy and Steph investigate possible causes. Air valves considered. This sound is also captured on the camcorder footage and sounds like two wooden doors being bang shut like cellar doors maybe where the barrels of beer would be loaded into the cellar.

## **Vigil 3: Bar – 04:05 to 04:50**

Temperature 24°C-25°C

No EMF Readings

Dictaphones and lock off cameras set up

04:25 Loud creak heard from pool tables area

04:35 Andy sees a flash of light on the wall under the TV screen (behind pool tables)

## **Post-Investigation**

Andy still has sound recordings to check at this time.
