

INVESTIGATION REPORT – Team 1 and 2

Investigation Site	Blisworth Tunnel, Grand Union Canal
Investigation Date	26 th April 2008
Report By	Andrew Fazekas and Marion Lawn
Team Members	Andy, Marion, Steph, Elaine, Richard, Leana, John

Andy's Report

LPS investigation at Blisworth Tunnel produced nothing of note that could be paranormally related.

However, I did get a headache after we had been through the tunnel and I took painkillers for the pain, which helped, and I felt better. However, I got a second headache after we had been through the tunnel going back to base as well.

I have viewed my DVD and photographs and sound recordings and nothing paranormal appears on these either.

Conclusion

There were times when it was noisy in the tunnel especially on the way back and this may have been the cause of my headache.

Marion's Report

Before the end of the older part of the tunnel, I was standing on the right side of the barge at the back when I heard a clear abrasive mans voice saying 'Enter'. This was right by my left ear.

My pictures showed a small blue orb on Andy's back. This was taken inside the barge on the return journey through the tunnel.
