

INVESTIGATION REPORT – Team 1

Investigation Site	Bovingdon Airfield and Boxmoor Common
Investigation Date	2nd May 2008
Report By	Elaine Ellis, Andy Fazekas and Stephanie Lawn
Team Members	Elaine, Steph, Andy & Adrian

Pre-Investigation

A week before the investigation, Steph went to visit the site on the afternoon of Sunday 27th April 2008. When walking South West along the Market area, Steph has pains in the back of her head and neck. This only occurred at the North West end of the Market stalls (as shown on the map on page 3).

Vigil 1: Near Centre of Runways

21:07 Steph takes the temperature of the surrounding areas but her thermometer is producing erratic measurements from -5°C to 4°C .

21:10 Adrian takes the temperature at Vigil 1 location with a reading of 12°C . Andy's temperature of the Vigil 1 site reads 6°C . They both take the temperature at three points along the width of the runway; Vigil 1 location, middle of the runway and the far end of the runway. Results below:

	<u>Andy's Readings</u>	<u>Adrian's Readings</u>
Team location	6°C	12°C
Middle	6°C	12.1°C
Far End	7°C	11.9°C
Humidity	-	63%

The differences in temperatures were concluded to be caused by the type of thermometer each was using. Andy was measuring the ground temperature and Adrian was measuring the air temperature.

21:15 Steph picks up 'B7'

21:27 Elaine gets the name John Lawrence he was a flight Lieutenant.

21:30 John flew Lancaster Bombers.

21:45 Someone walks across the airfield to Elaine's right.

21:53 Adrian and Steph see a small flash of red light to their right when using the shack hack.

21:57 Elaine sees red lights on the floor to the left of herself behind Steph and Adrian.

As we walked up the airfield someone walked past me on my right side.

22:08 The team are engulfed in a large cloud of mist that seems to come out of nowhere and disappear just as quickly. It was noted earlier in the vigil that the field on the opposite side of the runway was very misty but did not appear to be moving in quickly.

INVESTIGATION REPORT – Team 1

Investigation Site **Bovingdon Airfield and Boxmoor Common**

Investigation Date 2nd May 2008

During Vigil 1 Adrian, Steph and Andy used the shack hack to try and communicate with any spirits. There were quite a few names picked up on. Interestingly, Elaine mentioned she had picked up a name without telling Steph and Adrian. They independently heard the name 'John' a few times. Elaine revealed that this is the name she picked up. Other names that came through were Stephen, Gordon and Hughes.

At the beginning of the experiment Steph and Adrian clearly heard someone say 'Adrian'.

22:21 When walking with Team 1 up the runway to another location, Steph and Adrian heard someone say 'Weak Engine' on the shack hack. Results from this session are below:

Question: What is your name?

Response: Nothing heard.

Question: Where are you from?

Response: Memphis.

Adrian hears 'Englishman'.

Would you like to give a message to anyone?

Response: Abbey.

Question: Who are you?

Response: Air Marshall.

Adrian notes that the voice sounds American.

Question: Does Steph remind you of someone you know? Abbey?

Response: Yes.

Question: Do you have a message for Abbey?

Response: Visit.

Question: Where does Abbey live?

Response: America.

Steph and Adrian hear the word 'Marshall' again.

Vigil 2: Centre of West Runway

22:39 Adrian sees another red light in front of him as Team 1 walks up the runway.

22:40 Andy and Adrian went to check out some red lights they had seen and a figure walked right between them, seen by Elaine.

23:00 Steph sees in her minds eye 'B7' again but this time it is written in red.

23:05 Adrian uses the shack hack and hears the name 'John' a few times.

23:09 Steph goes for a walk round in a circle pattern around the team at the West end of the runway. As she walks she gets the impression of having a dog on a lead next to her with the impression of dogs and dog handlers.

INVESTIGATION REPORT – Team 1

Investigation Site	Bovingdon Airfield and Boxmoor Common
Investigation Date	2nd May 2008

23:15 Steph and Adrian use the shack hack. Results are below:

Question: What is your name?

Response: John.

Question: What plane do you fly?

Response: Hurricane.

Question: What rank are you? (Q from Elaine)

Response: Major.

Question: What squadron are you in?

Response: Steph and Adrian hear what sounds like '30'.

Question: What is the emblem of your squadron?

Response: No Answer.

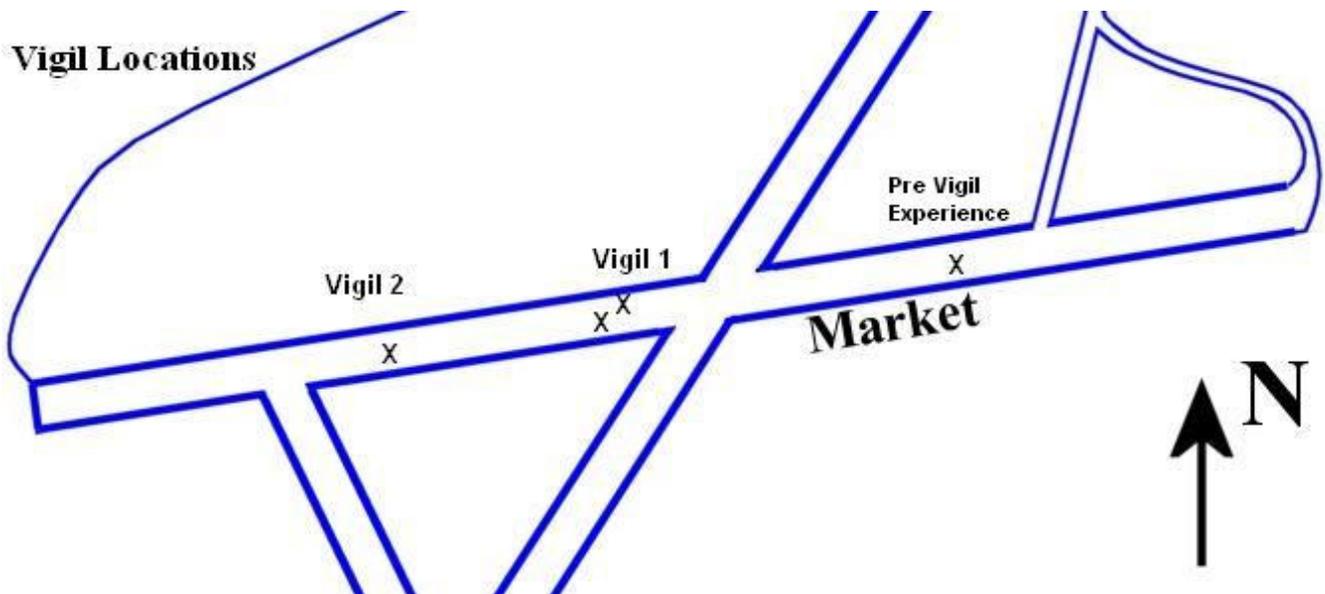

Question: Do you have a message for us?

Response: What became...

Adrian hears 'Bedford'

Adrian thanks the spirit before closing the experiment.

Vigil Locations

INVESTIGATION REPORT – Team 1

Investigation Site **Bovingdon Airfield and Boxmoor Common**

Investigation Date 2nd May 2008

Snooks Grave

A late arrival at the site meant that members could not take part in the midnight dance around Snook's grave. Alternatively a short séance was held.

During the séance Andy had a strong urge to break from the circle and get off the spot he was standing on. He described it as a strong desire to move from the graveside spot to the safety of the nearby trees. This feeling came out of nowhere but he cannot evidence this as paranormal more a thought that came into his head.

Steph gets the impression that Robert Snooks laughed a lot and appeared to be very jolly. He would have a huge smile on his face and be calm and collected, even when robbing people; he would just have a big grin on his face.
