Vigil One: Cemetery North of St Mary's

Elaine was sat in another part of the cemetery away from Andy and Mark. As the vigil began two dog walkers appeared in the cemetery near to Andy. A man and a woman and a dog and as the dog began to run to Andy the man began shouting at his dog ruining any sound recording taken at that time.

21:20 Mark was sitting on a bench near the bottom of right hand corner of church yard with Andy. Mark felt a familiar chill down the left side of his spine and shoulder. He usually feels this when spirit come close.

21:23 Mark decided to wonder around church yard. He walked straight up foot path to top right hand corner of church yard along foot path, then turned left and continued to top left hand corner of church yard. When he was about 15ft from the left top corner of the church yard he heard what he thought was a twig breaking behind me. Mark turned around, but no-one was behind him. Mark then walked along path, but could not find a twig anywhere.

21:30 Elaine was sitting in the other part of the graveyard from Andy and Mark, she felt like someone was standing behind her.

21:38 Mark continued patrolling around the cemetery. He then walked down foot path to left bottom corner, and turned around, to continue walking back to bottom right hand corner of cemetery. This is as you look diagonally across the cemetery to top right hand corner of the cemetery. Mark then saw a dark cloaked figure walk about 10 feet in front of the last two grave stones in the top right had corner and then disappear.

21:43 Andy is sat on the bench and hears the sound of an animal moving behind him.

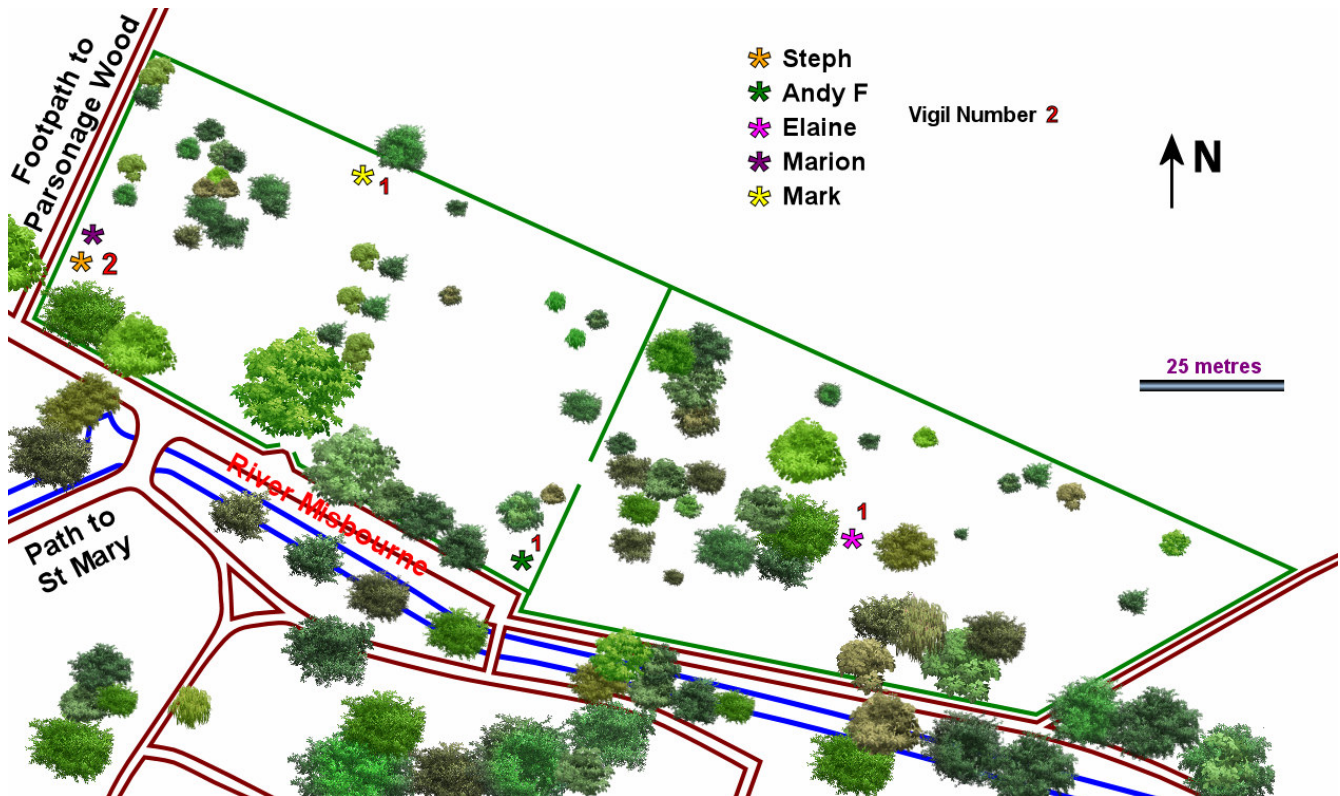

21:45 Elaine could hear footsteps on her left when looking around no one else was around.

21:47 Mark proceeded to top right hand corner of cemetery again to investigate dark figure. He sensed there was a young widow looking at the two last grave stones, dressed in a black cloak, with a hood drawn over her head possibly Victorian in style. Mark then picked up the name Elizabeth. He checked the names on the grave stones, but there was no sign of an Elizabeth named on the stones.

Vigil 2: Pathway Past St Mary's Rectory.

Mark and Andy are sat on a wall that runs along the pathway with a river on one side. Elaine has chosen to sit on a bench next to the church itself. Mark would like to add here that before the vigil started. He sensed a horse drawn hearse travelling past rectory heading to grave yard.

22:08 Mark was sitting on wall with Andy when he suddenly felt cool breeze on his left ear. Mark mentioned it to Andy and both agreed there was no breeze.

22:10 Andy asked mark if he had called his name, Andy clearly heard someone call his name, but it was not Mark and Mark did not hear this. Prior to this vigil Andy has placed his sound recorder on the wall next to the rectory. At this time the recorder picks up the sound of a vehicle moving past the recorder but nothing is seen.

22:13 Mark sensed again a young cloaked widow, this time following the hearse past the rectory, but she was following it alone. Mark thought that was strange that there was know one else following the hearse.

22:19 At this time Andy's sound recorder clearly picks up the name "Pete" being spoken near to the recorder. No members of the team are near to the recorder at the time.

INVESTIGATION REPORT – Team 1

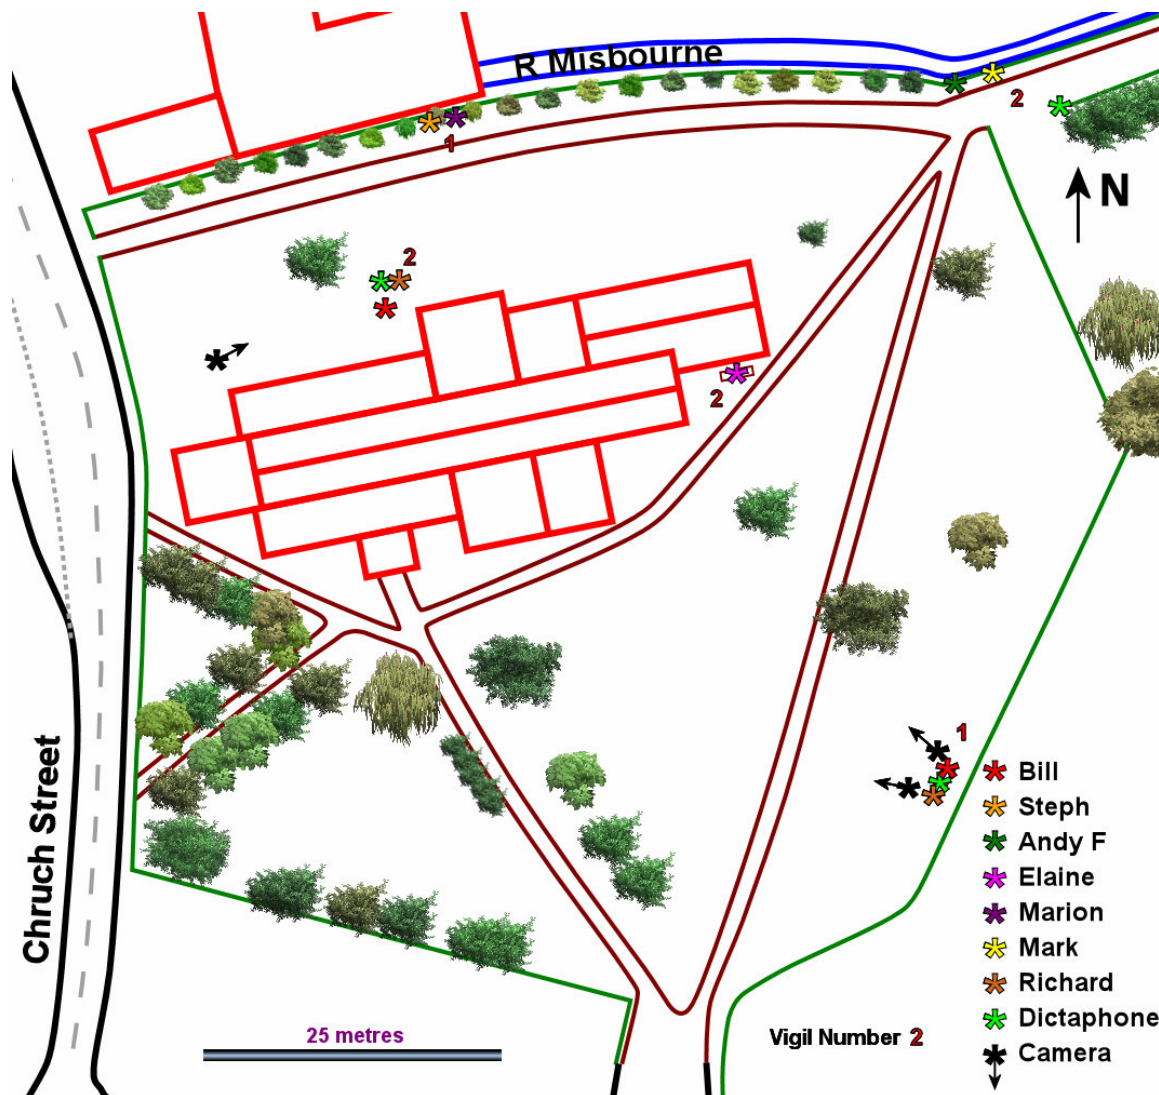

Investigation Site	Amersham Old Town, St Mary and Parsonage Wood
Investigation Date	22nd May 2009

22:20 Mark walked up path way with Andy. As he walked up the path he suddenly felt that my left arm turned to ice although his right arm felt normal. This was investigated by both Andy and Mark, but this appeared to happen only in one spot dead that was opposite a fenced opening in wall on the other side of the river. Mark moved around until he felt it again. This time his left arm felt like an ice berg. As Mark has stated above his left side of my body feels a chill when he senses spirit, but he has never felt a chill like this before. Mark felt like his left arm was in a freezer!

During this period Andy was filming this incident with his camcorder. Andy did separate temperature checks on both arms but there was not any temperature difference. Andy checked the area with EMF meter again no change. Mark said it took ages for his arm to warm up afterwards.

22:25 Elaine was sitting on the bench next the church and could hear whispering coming from the corner behind her.

22:35 Mark returns to the spot reported as being cold earlier but this time there is no chilling feeling!

Parsonage Woods

Vigil 1

The team was guided by Mark who had felt energy at an opening in the woods and we decide to set up site there. Andy and Mark sat next to a tree and Elaine was sat in a clearing.

23:45 Elaine has an uncomfortable feeling.

23:54 Mark thought he could see glowing like orbs in the trees opposite him about 4-5 feet above the ground yellow and orange in colour. However they did not move, although they kept appearing and disappearing. At first Mark thought they were glimmers of street lights that were shining through the trees. However there were no street lights nearby. Mark thought it must be another team of LPS, but realized later that our team was not near any of the other teams. This went on and off continuously throughout the vigil all the time.

00:05 Elaine states it seems to have gone misty all of a sudden to the left of her.

00:07 Mark heard a sound like a small child crying faintly in the back ground.

00:15 Elaine asks to leave but is not heard by Andy and Mark, as she has the feeling that something is going to happen.

00:24 Mark again heard small child crying in the back ground faintly.

00:25 Elaine picks up the name Rose.

Mark notes that although the other two members appeared agitated at the end of the vigil. Mark did feel a sense of peace around him in the woods.

At one point during the vigil on the pathway next to the rectory, light orbs were seen on the DVD recorder but this was explored and found to be glare from a nearby light source.
