

# INVESTIGATION REPORT – Team 2

Investigation Site	Tilsworth, Blackgrove Wood
Investigation Date	10 <sup>th</sup> June 2011
Report By	Stephanie King
Team Members	Stephanie and Richard

## Vigil 1: North Edge of Wood – 21:45 to 22:15

Richard sites facing south by east. For the positions of the team members see the plan below.

21:46 Steph measures the temperature as +10°C and notes there is a lot of noisy birds to the northwest.

21.48 Richard records the temperature as +12°C and the moon phase is First Quarter. Richard notes lots of birds making a racket.

21.53 At this time Richard sensed a shadow of a man with arms drooped either side, leaning forward.

21.54 At this moment Richard got a sensation of being 'brushed past' (for example if someone was running from behind you, very very close).

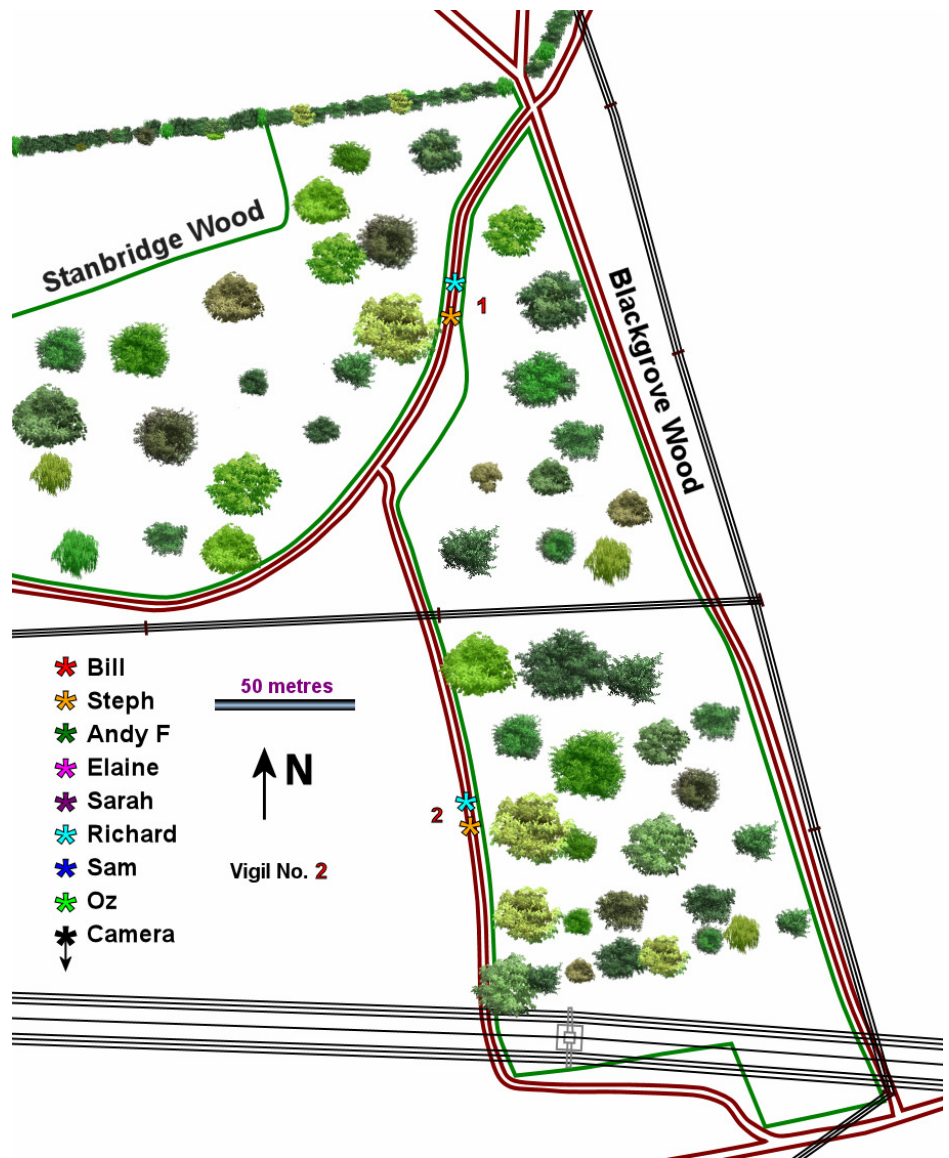

21.55 A cracking noise was heard by Richard.

21:56 Steph feels like Richard and herself are being watched from further down the path to Richard's left.

21.58 At this moment Richard had a feeling of being forcibly 'pushed' from behind.

21.59 Richard sensed a shape, in white, appearing to duck out of view to his left (to the southwest by south).

22:01 Steph gets the impression of an anvil.

## INVESTIGATION REPORT – Team 2

**Investigation Site** Tilsworth, Blackgrove Wood

**Investigation Date** 10th June 2011

- 22.02 Right at this moment Richard starts to feel unwell and he has a massive cold-shiver down his left-hand side from his upper arm down to his hand. Richard also has a headache starting to occur.
- 22.03 Richard feels as if something (like the aforementioned white blob) is appearing in 'freeze frame' down the path, also he has numerous cold-shivers from this time for the next ninety seconds.
- 22:05 Steph notes it has started to rain. She hears something moving in the woods quite loudly towards the south-southwest and thinks it is probably Team 1. [**Editor's Note:** Team 1 were almost due south at the time and close to the south end of the wood, a long way away from Team 2, in fact over two hundred metres away.]
- 22.07 Richard is feeling more apprehensive, and has a feeling of being watched. The name 'EMILY???' occurs to Richard and his mind feels frozen at the thought of that name.
- 22:09 Steph has a strong feeling that she doesn't want to look past Richard's left-hand side down the path. She also notices the bird noise has virtually stopped.
- 22.12 A chill is felt on Richard's left knee.

### **Vigil 2: West of the Wood – 22:25 to 22:55**

For this vigil Richard was facing south-southwest. For the positions of the team members see the plan on the preceding page.

- 22:25 Richard records the temperature at +13° C.
- 22:26 Steph measures the temperature as +8°C.
- 22.25 Richard notes there is rain in the air.
- 22:32 Steph sees two large faint flashes of light in the sky, about twenty seconds apart, to the west which she describes as a kind of pulse. She thinks these are too large to be from an aircraft passing through the clouds.
- 22.37 Richard feels, once again, as if he is being watched from the right towards the gate where the last vigil was, a black irregular blob appearing about sixty centimetres off the ground near there.
- 22.43 Another cold-shiver was experienced down Richard's left-hand side.
- 22.52 Richard has yet another cold-shiver, on the right-hand side now, and feeling unstable, without actually being so.
- Steph suddenly feels extremely tired.

### **Séance**

Steph did not pick up anything unusual during the séance.

### **Post Vigils**

Steph noted that she felt very tired and drowsy during the second vigil. This feeling did not occur in Vigil 1 or during the séance.

# INVESTIGATION REPORT – Team 2

**Investigation Site**      Tilsworth, Blackgrove Wood

**Investigation Date**      10th June 2011

## Equipment List

Steph      Digital Camera: Olympus  $\mu$  Digital 600  
              Digital Voice Recorder: Olympus VN-480PC  
              Gauss Meter  
              Digital Infrared Thermometer: Tecpel DIT-512  
              Notepad & pen, torch and watch

Richard    Digital Camera: Kodak M1200  
              Digital Compass/Thermometer: Maxview  
              Digital Voice Recorder: Olympus WS-210S  
              Notepad & pen, torch and watch
