Bramfield - Sally Rainbow's Dell

General

Ambient sounds: Aircraft, peacock, birds, slight wind and party music.

Pre-Vigil

As we approached the dell coming up the lane Sarah's first impressions were of how pretty it all was. There was a rustling in the trees from a light wind. After taking several photo's and two film clips adding up to 5 minutes exactly, Sarah's camera battery had died, and it was fully charged on leaving home.

Elaine is wondering if a poem or song has been made-up about sally or the dell.

We were lucky tonight...no rain and it was quite warm. The dell appeared to be one of the old chalk pits dotted around the area and was really pretty, as long as you didn't stand too near the edge and the steep drop you will be ok. Marion felt uncomfortable here. When Marion first walked into the Dell the word "sprite" came to mind. This is another name for fairy. Marion had the feeling of someone small running in and out of the trees. She wondered if this was actually a child.

Vigil 1: West of Dell – 21:25 to 22:00

For the positions of the team members see the plan on page 3.

21:26 Elaine measures the temperature as +15.3°C.

21:30 Sarah could hear party music from across the field. There was a boom from an aeroplane.

21:32 Marion hears a peacock which continues to call all night.

Elaine hears a peacock calling.

21:38 Sarah could hear piano music, and picked up on a child near the edge of the drop into the dell. Sarah saw a blueish flash on the ground to her left.

21:40 Marion decides to work with her pendulum and asks the following questions:

Is Sally here?..... Yes

Are you a girl under 20?..... Yes

Are you a woman over 20? No

Are you a sprite?..... Yes

If I count from 1-20 will you tell me how old you are?

Marion counts slowly from 1 to 20 and the pendulum only says yes at 6.

Did you die here?..... No

Did you live here?..... Yes

21:51 Elaine hears a team member moving around in the dell.

21:52 Sarah heard an animal, or movement coming from up the lane (northwest).

Investigation Date 8th July 2011

21:57 Sarah heard movement noises, a buzzing sound which seemed to be near Elaine (behind Sarah) and jazz music from the houses.

21:58 Little thuds are heard coming from behind Elaine.

22:00 Marion asks:

Did you live in a cottage No

Did you live on a farm Yes

Sarah heard drums beating.

Elaine measures the temperature at +15.2°C.

Vigil 2: Southwest of Dell – 22:05 to 22:40

For the positions of the team members see the plan below.

22:01 Sarah keeps seeing big white flashes to her left towards Elaine. A peacock is calling.

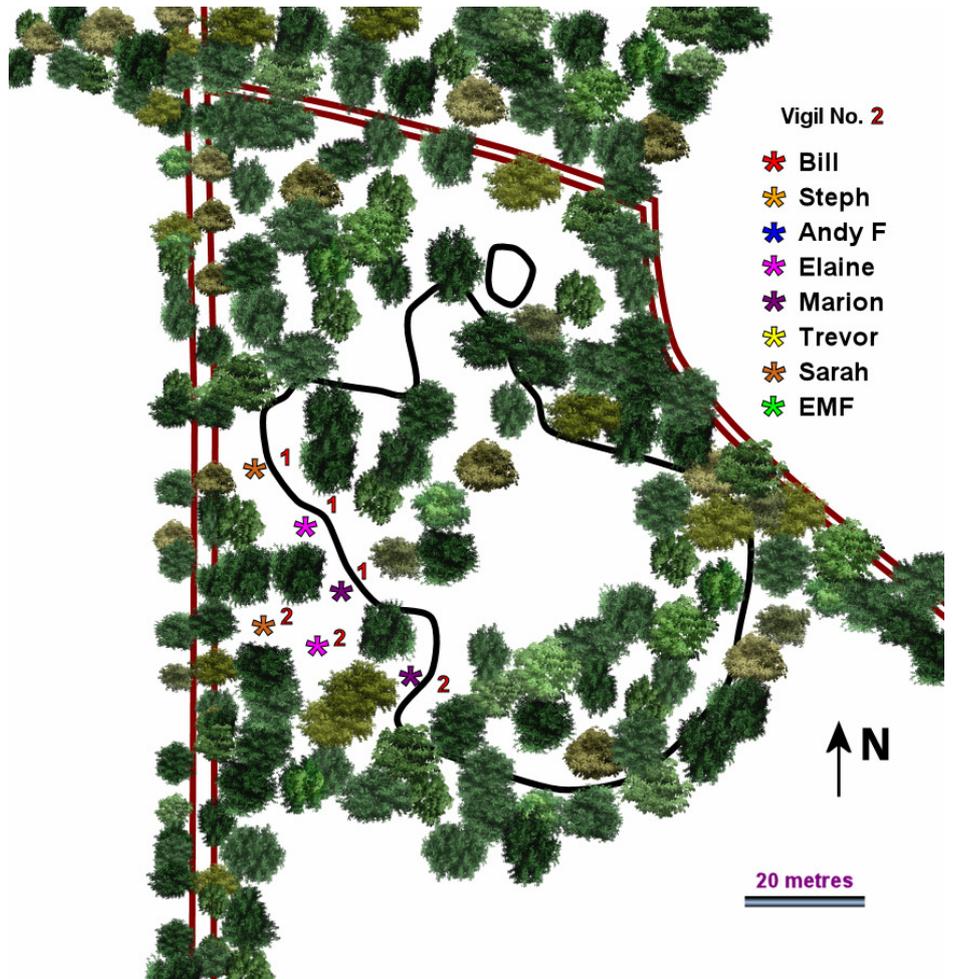

Elaine measures the temperature +15.1°C.

22:07 Sarah hears deep drums banging.

22:10 Marion feels like her hair is being gently touched by a little hand and played with all over just like her children did when they were small. It felt lovely. The left side of her forehead just by the hair line was itching, stinging and hurting like mad. Eventually Marion had to give it a good scratch.

22:13 Marion asks her guide Stephen if he can bring Sally to say “Hello” and gets the image of a little girl slipping through the trees and hears the words “Here I am” in a clear child’s voice. She is so pretty.

Elaine has the impression of a woman being seen in the dell.

INVESTIGATION REPORT – Team 3

Investigation Site Bramfield, Sally Rainbow's Dell and Tewin, St Peter

Investigation Date 8th July 2011

22:14 Elaine see two red flashes of light by the tree in front of her, they were no bigger than a tennis ball.

22:15 Marion sees a small flash of yellow light on the cuff of the sleeve of her coat. Sally asks Marion if she wants to play. Marion says "Yes, shall we play a guessing game"

Sally is so sweet, small framed, a lovely thinish face, black hair that comes halfway between her shoulder and elbow. She has a white blouse, dark blue long skirt and a little white pinafore. She also has a fawn coloured knitted shawl. She is standing looking at Marion with her hand behind her back and twisting her top half side to side. Just like the kids do. Marion asks her if she would like to play I Spy.

Sally turned her head to look behind her as if she had heard something and said "Sorry have to go now". Sally then skipped off in the same direction as the lane continued.

Marion thinks Sally is the little 'Sprite' flitting through the woods she had picked up earlier.

Sarah hears what can only be described as sounding like a low hovering spaceship drone sound! Then the sound like it is rising up and leaves. This wasn't a motorbike or a car sound. Sarah also hears a lot of aircraft and humming.

As Elaine was looking toward the trees in front of her she notices it was like looking into a mirror and has not seen anything like this before.

22:20 Marion reports that Sally turns and waves as she runs off. The peacocks are off again and someone is having a very noisy birthday party in the house across the field.

Sarah hears birthday celebrations from the houses across the field, and live music has started playing.

22:21 Elaine hears a strange noise behind her, the wind picks up and the trees started to creak.

22:25 Marion gets the names *Denis* or *Denise* and *Malborough*. The noise from the party was making it hard to concentrate.

22:26 Elaine has the feeling someone is waiting to pounce.

22:27 Sarah saw an orange flash in the trees near Marion. Sarah felt distracted by the music.

22:34 While looking at Marion, Elaine sees a white mist go past. It was 1.2m off the ground.

22:40 Sarah felt touched on both hands at the same time, which made her think it couldn't have been an insect, and it hadn't happened all evening.

Investigation Date 8th July 2011

Post-Vigil

On the walk back down the lane Marion had the same experience about a third and then two thirds of the way. She saw a little sparkly dot of red light come straight at her and then disappear as it reached her.

While we were walking back down the lane, Elaine has the sense of being watched and a sadness that we are leaving.

Marion wonders if the legend of the witch in the dell was started by locals to keep children from playing in a dangerous place. If Sally Rainbow's name is associated with the area and the witch was also associated with the area, as time went by were the two linked together and did Sally actually become a witch.

Tewin, St Peter's Church

Sarah did not join us for this investigation.

In Marion's case nightmare at Tewin. It was decided that we would walk along the public right of way to the back of the church instead of going up the drive. Elaine could not go any further as her back was playing up and decided to return to the car. As we started to walk across the field Marion asked Bill if there were any horses here. Bill said No. Marion breathed a sigh of relief as doesn't like them. Half way across Steph said "what's that over by the fence". Horrors! Two horses, Steph says to Marion "now don't panic I'm between you and them". So we plodded on Bill says what's that over there and shines his torch across to the corner of the field. It's horses...a herd of them...well four ...They are galloping across the field to meet the other two. At this point Marion is starting to panic. We make it over to the gate with everyone shooing them away, only to find the gate locked and the fence electrified so we can't go through. Marion then realizes that we have to walk all the way back, which she does in quite a fast pace. Marion wishes to thank the team for keeping her safe and getting her back in one piece.

Marion decides to stay in the car with Elaine and keep her company. [**Editor's Note:** The cars were parked in Churchfield Road opposite the entrance to Muspatts Farm] They were chatting and Elaine said "I think they are coming back I can see a light in the bushes on the right of the field" Marion looked over and also saw the white light in the bushes. It wasn't the team, they came back a bit later down the lane, Marion was wondering if it was poacher as there was plenty of bunnies about.

While Elaine and Marion were sitting in the car, Elaine was waiting for a face to appear at the fence. As Elaine was looking out of the rear window she sees a black figure walk past the back of the car and to the drivers side and disappear. While looking in the wing mirrors Elaine notices a light from near the houses behind, it looked like a lantern being waved then disappear.

Post-Investigation

Marion has just experienced something she didn't expect while typing up the report.

She has just said out loud to herself "Itching" in a childish voice that made her sound like "Sally Morgan". Her head went over to the left and her left shoulder came up to meet it. Marion has just said "Not very well" in the same voice. She has gone cold and has the real shivers down her spine.

Marion has the image of part of a small coffin. Marion says "Oh my god", she has said coffin like a child again.

Marion stops typing for a minute to say to “But your alright now playing here. You like it here” She asks for the voice to be taken off of her.

Marion can see a child's face in the coffin it is dark purple with bruising and is wearing a little white bonnet with a frill round the edge. This makes Marion feel quite sad, poor thing.

Elaine did not get anything on camera or voice recorder.
