

INVESTIGATION REPORT – Team 2		
Investigation Site	Brogborough Park	
Investigation Date	2 nd March 2012	
Report By	Stephanie King	
Team Members	Steph and Sarah H	

Pre-Investigation

The group walked around Brogborough Park, this included a ruin of a 17th century house and ruins of more modern buildings including a barn, a motte and a pathway and Sarah H felt “drawn” to the 17th century house. The weather was cold and foggy.

Vigil 1: House – 21:28 to 22:05

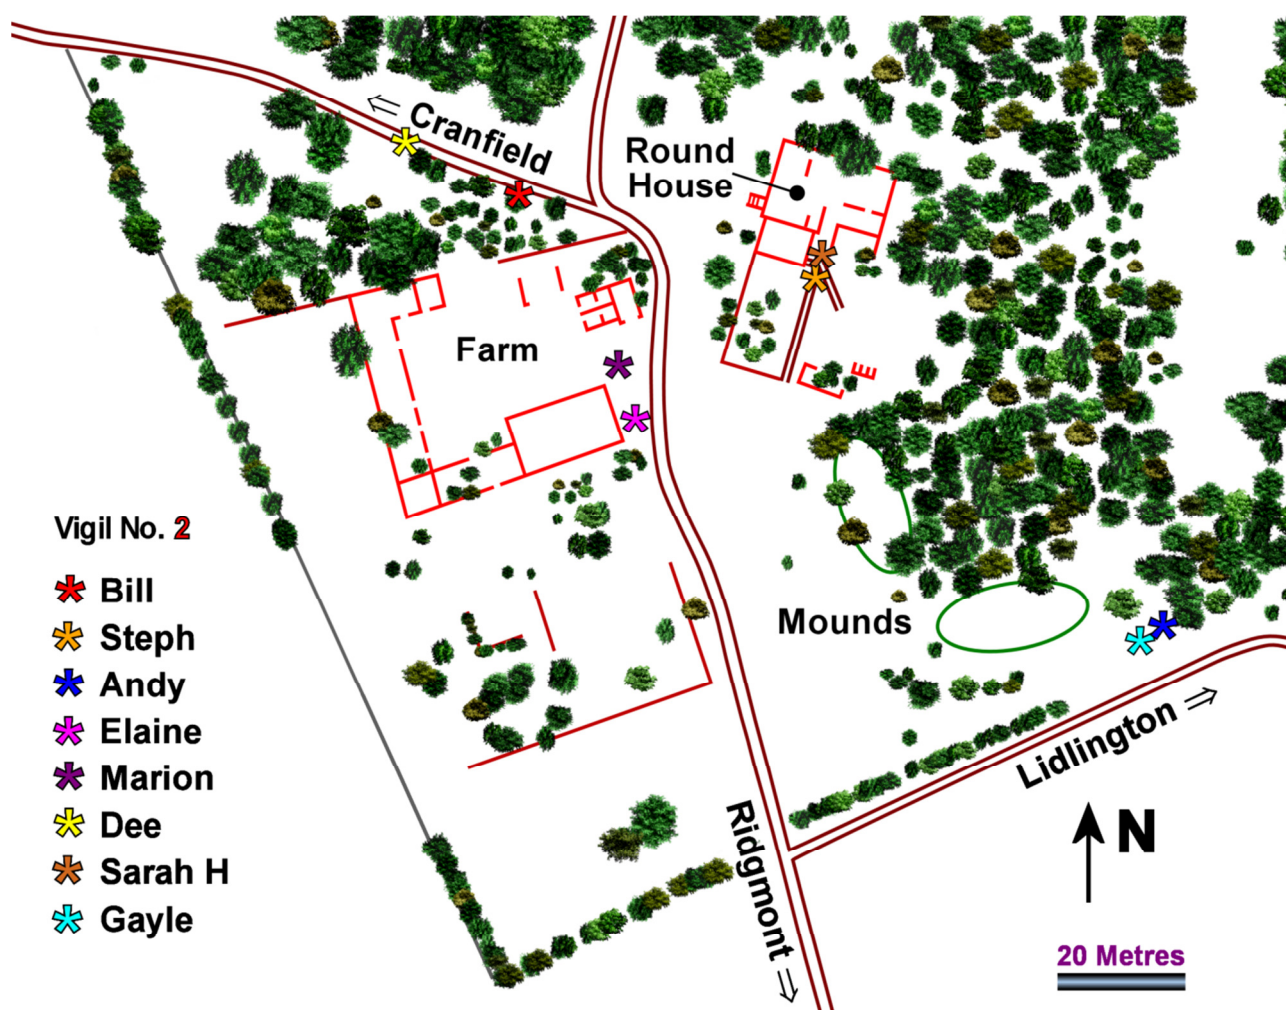

For the positions of the team members see the plan below.

21:29 Steph measured the temperature as +5.5°C.

21:30 Sarah H felt something brush against her left hand.

21:35 Sarah H heard a sound from within the building.

21:39 Steph is not picking up anything. She feels an occasional chilly breeze coming from the direction of the house and notes there is a lot of industrial type noise coming from a distance behind her.

INVESTIGATION REPORT – Team 2

Investigation Site Brogborough Park

Investigation Date 2nd March 2012

21:45 Sarah H heard a faint shuffling sound from within the building.

Steph feels the house is intriguing, like it is pulling her in. She feels there is something mysterious about it.

21:47 Steph hears two noises on the far side of the house with a slight echo to them. Possibly coughs/sneezes from another team? (**Editor's Note:** This was Bill in Team 3.)

21:51 Steph is looking in Sarah's direction. At the time Sarah is looking over her left shoulder to the area behind her. Steph sees something small, pale and white (a mass) moving low to the ground behind Sarah, going towards the direction of the house.

21:59 Steph gets a name that is something like *Rotherton* or *Rufferton*.

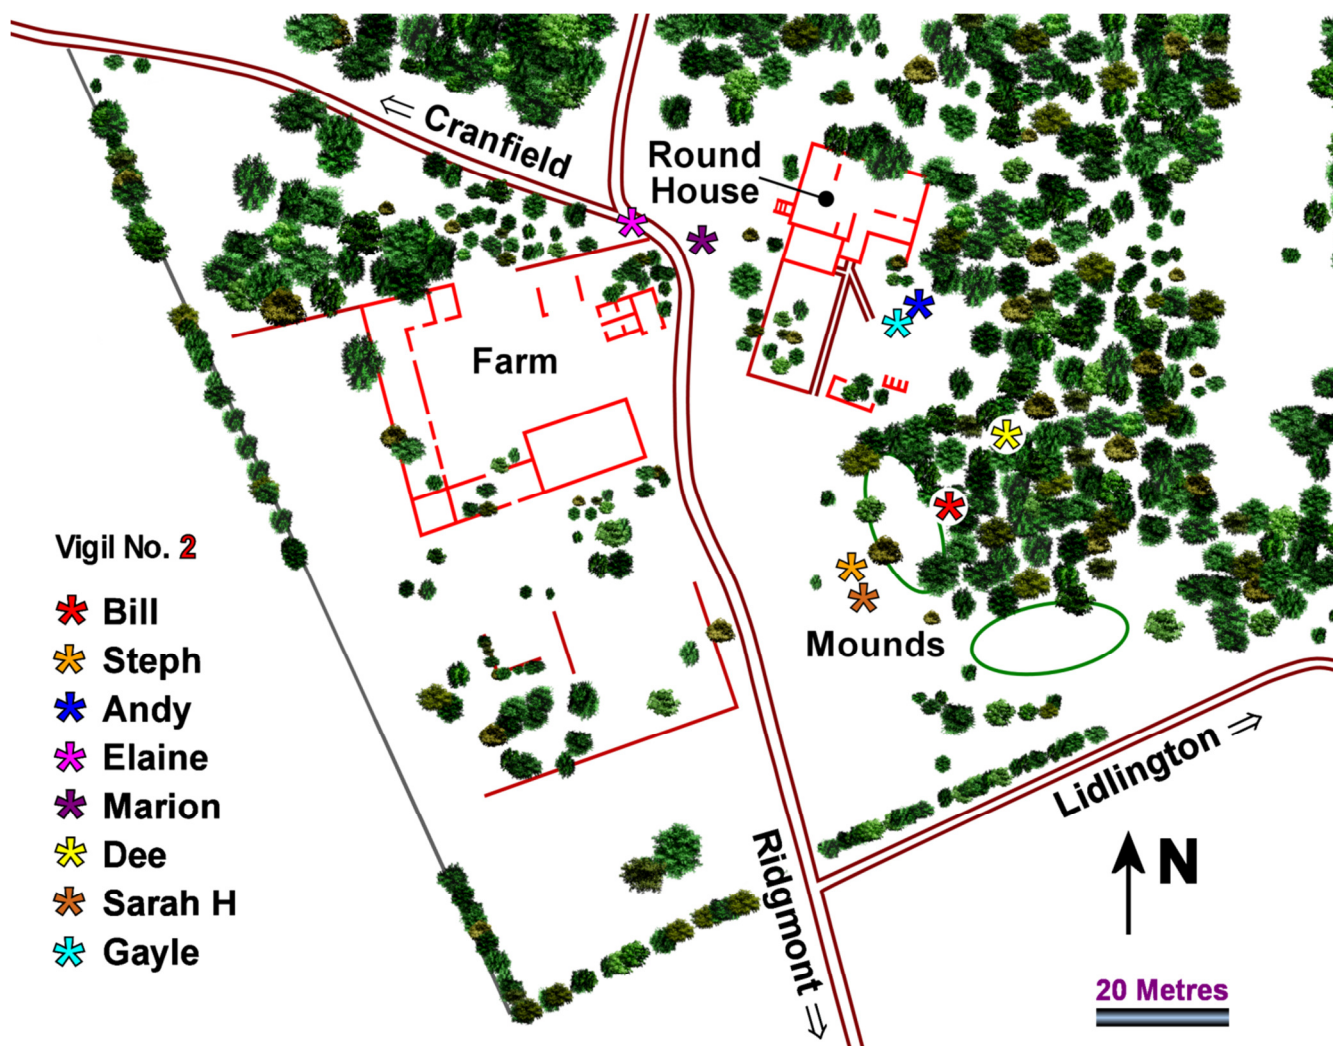

22:00 Sarah H heard more sounds from within the building.

22:04 Steph can see what looks like a small dark figure standing just inside the doorway of the house.

Vigil 2: Earthworks – 22:14 to 22:45

For the positions of the team members see the plan below

22:15 Sarah H heard noises coming from near the trees, sounded like footsteps and the cracking of

INVESTIGATION REPORT – Team 2

Investigation Site Brogborough Park

Investigation Date 2nd March 2012

twigs. (**Editor's Note:** This was most likely Team 3 as they were exploring the other side of the earthworks.)

Steph measures the temperature as +6.4°C. She notes it is becoming very foggy. Steph then hears a sheep bleat somewhere over to her left.

22:19 Steph notes the ruins look very eerie in the fog and it feels like a scene from a horror film!

22:20 Sarah H saw a white shape near the trees.

22:25 When Steph looks at the motte, she feels safe but doesn't know why.

22:28 Steph feels that this area gives off a strong sense of stepping back in time.

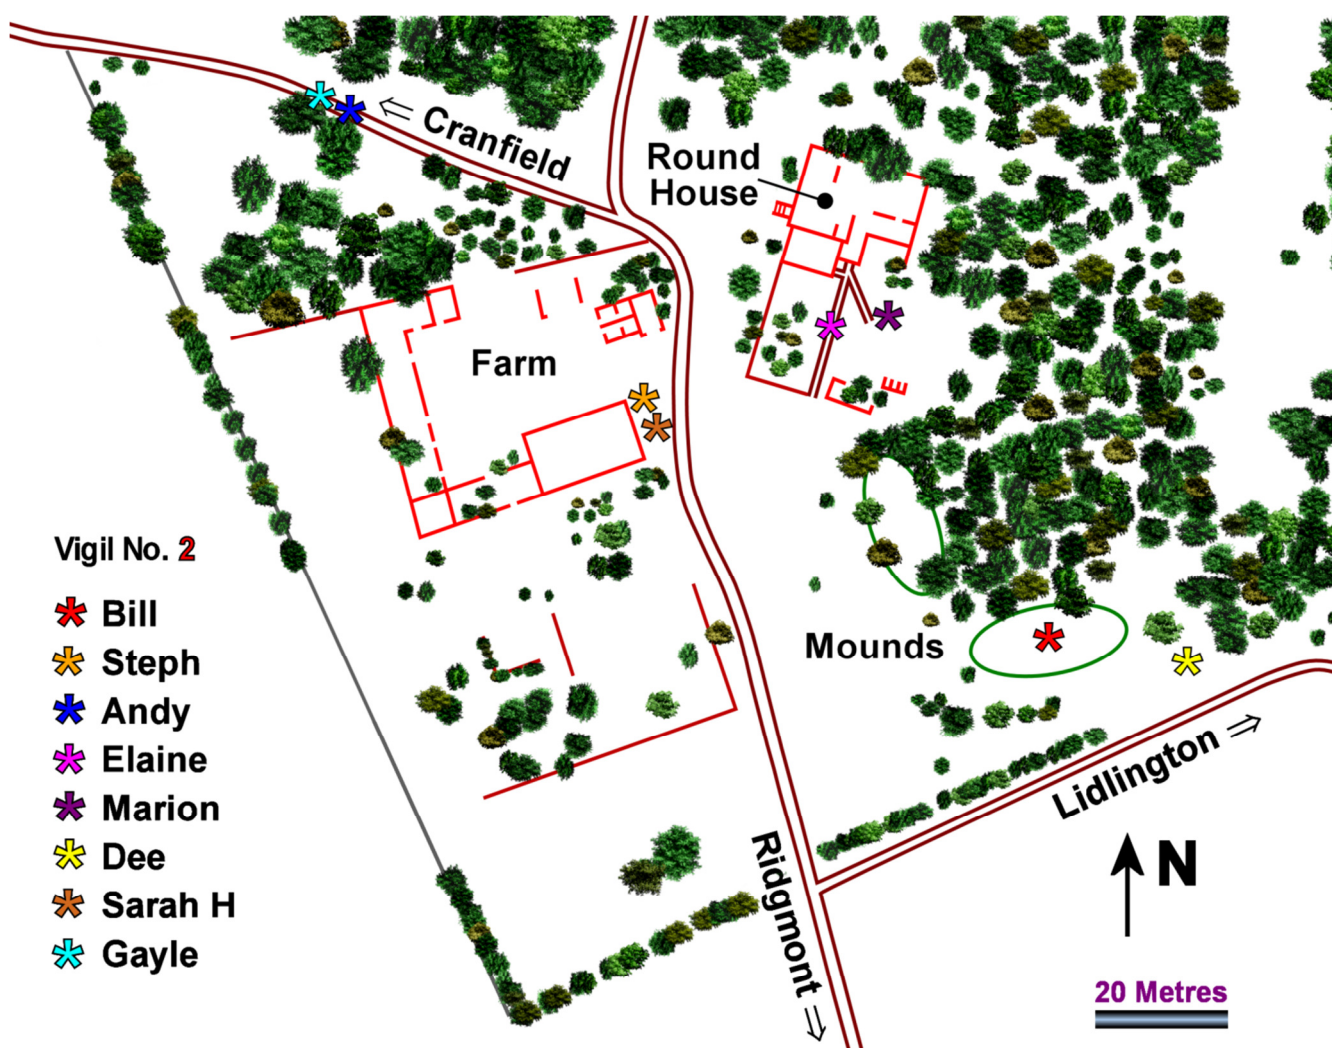

21:29 Steph gets the name *Ruth E. Ford* and wonders if this is the name she was getting earlier.

Vigil 3: Barn – 22:55 to 22:30

For the positions of the team members see the plan below

23:00 Sarah H felt slightly nauseous.

23:04 Steph feels the area around the barn is very calm and peaceful. She also feels the barn has been

used for some sort of celebration.

23:09 Steph sees a white ball of light on the wall of the house.

23:13 Steph and Sarah discuss the weather as it appears to be raining (this was actually the fog!)

23:15 Started raining and Sarah H visualised the words *A Place beyond Time*.

23:20 Steph measures the temperature as +5.7°C. Steph notes it is getting much foggier.

23:22 Steph is drawn to the open area to the right of the barn.

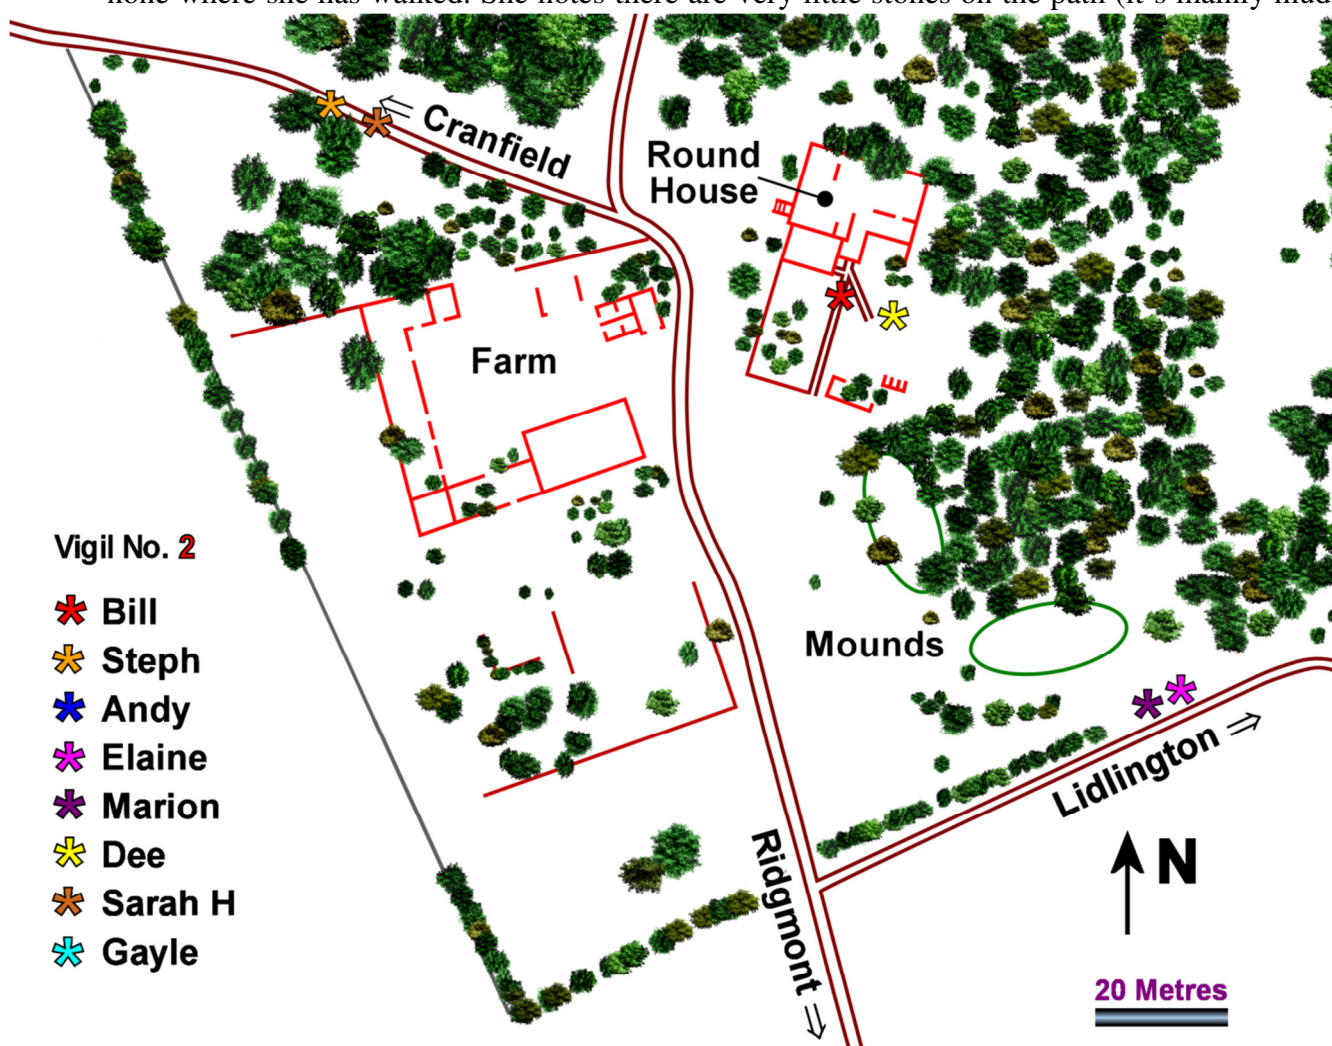

Vigil 4: John Bunyan Trail – 23:36 to 00:10

For the positions of the team members see the plan below

23:39 Steph measures the temperature as +5.7°C. Steph hears lots of owls hooting and sees flashes coming from near the house as well as voices. She notes this is one of the other teams.

23:45 Sarah H visualised a coach and horses.

23:47 Steph is walking slowly up the path in the direction of the bridge. She hears what sounds like stones being kicked. She checks to see if she has kicked any stones as she walked but there are none where she has walked. She notes there are very little stones on the path (it's mainly mud)

and she has only passed one single stone close to the edge of the path. She walks back and kicks it but it doesn't make much of a sound. Steph related the experience to Sarah who then also walks the same route to see if anything happens but nothing occurred on Sarah's walk.

23:54 Steph sneezes.

Equipment List

Steph	Digital Camera: General Electric E1480W Digital Voice Recorder: Olympus WS-560M Gauss Meter Notepad, pen, torch and watch
Sarah H	Digital Camera Notepad, pen, torch and watch
