

INVESTIGATION REPORT – Team One

Investigation Site	Somerles Castle, St Mary Church Clophill, Tilsworth
Investigation Date	15/08/11
Report By	Andy Fazekas
Team Members	Andy,

Andy Digital Camera: Panasonic Lumix DMC-FS15
 Digital Camcorder: Sony DCR-DVD306E
 Digital Voice Recorder: Olympus VN-480PC
 EMF meter: K-II

Conditions

Daytime investigation, sunny with some cloud

Ambient Sounds

Road traffic and wind

Somerles Castle: 13.00 – 14.10 – Andy and Bill

Andy and Bill conducted a investigation of the building and surrounding area and were able to access the tower. However due to a large amount of rubble they could find no sign of a cellar. A EMF experiment was also conducted on the stairs.

Post Investigation

No activity was recorded

St Mary's Church Clophill: 15.00-16.10 - Andy

Andy explored the area of the cemetery but not the church building itself which was surrounded by fencing as building is due to take place there shortly. During the exploration of one part of he churchyard Andy came across the grave and tombstone of Sophie Stimson who died June 28th 1915.

While standing next to the grave looking at the tombstone Andy was overcome with a strong feeling of grief and loss for Sophie. So much so that Andy had to move away from this area as he found this upsetting. Andy moved away from the area and the feeling left him. After a few minutes Andy decide to return to this spot and was once again overcome with grief and a sense of loss and then decided to move away from the grave.

Post Investigation

Sophie was the husband of one Bennet Stimson. Was the emotion Andy felt residual energy from Bennet standing at the grave of his lost wife? Further to this there is a possibility that the name Sophie came up during a LPS investigation of the church with other organisations and this needs to be further clarified

INVESTIGATION REPORT – Team One

Investigation Site	Someries Castle, St Mary Church Clophill, Tilsworth
Investigation Date	15/08/11

Tilsworth Woods: Andy, Bill Steph and Elaine.

During the walk around the woods, both Steph and Andy observed that Andy's EMF meter spiked twice. Although no further spikes were recorded an EVP experiment was completed.

Post Investigation

Andy has reviewed his camcorder footage and has recorded the following footage:

Steph is clearly seen asking the question: Can you give us your name or the name of the man who murdered you? On the film there is the clear voice of a woman saying "No". although this was not picked up by the team at the time.

Ongoing investigation

The above sounds from the camcorder need to be further examined in case it was Elaine who was nearby and maybe she was speaking to Bill and Dictaphones needs to be further analysed
