

Employee statement from Galaxy Cinema Luton

I was at work that day and I was standing on a drop box (where the tickets are taken) outside screens 1-4. Two staff members James and Saffi went to clean screen 4. They held the doors open for people and then James went in to see if there was anyone left to come out. He came back and told us that there was a lady still watching the credits.

A few minutes passed and she never came out so James went to see if she was ok. He came back out saying there was no one there. There is only two ways out of a screen, the doors where James and Saffi was standing and I was watching, or the fire exit which sets off our alarms when opened. I asked him to write down what he saw and he agreed the LPS could have his story. I've known James for a while now and I don't believe he would make this up, he seemed slightly shaken.

Here's what he wrote for me straight after:

Time: approx 2:20 pm 14/5/05

Place: Luton Galaxy Cinema, screen 4 mid/rear right hand side

Visibility: Poor/ok, dim lighting. (It's always light enough to see when the credits are rolling)

Appearance: Lady, mid to late 30's, shortish curly hair, eating - maybe popcorn.

Other: Lady was 100% there on first view. 2-3 minutes later had disappeared. Checked screen fully, only exit blocked by myself and one other. Fire exit was not set off.
