Remote Investigation

Marion couldn't make this investigation so worked from home, this report was done on Wednesday 28th October, 3 days before the investigation took place and she experienced something she has never had before.

She first picked up the words 'Something evil and nasty happened here', and 'nasty man'. She keeps hearing the words 'The corner of the graveyard' repeated over and over again. She is seeing shrubbery and tall trees with thin trunks. She had the feeling that something happened there and she is getting a nasty feeling about it. When she goes to bed and to sleep she finds herself standing in the church (this is so vivid she feels as if she is actually there). She is standing looking at the shadowy figure of a monk in black robes. His head which is covered by the cowl is bent low so she cannot see his face. His arms are held out to the side and down with both palms facing upwards. (Marion has looked this up and believes it may be an act of penitence).

He is standing in front of a plain plastered white wall. The next minute she is standing on the riverbank, it is dark and she hears a woman repeating over and over again "Please don't let me fall in the river". She sounded really frightened. She woke up with a start saying to herself "Don't let me fall in the river,

don't let me fall in the river". When she calmed down she went back to sleep only to have this awful scene repeat itself from start to finish. This time she woke up with a start in an absolute panic saying to herself over and over "I don't want to go there, I don't want to go there". She has never had an experience repeat itself from start to finish like this before. She was picking up a lot of fear here. She finally got back to sleep and found herself standing on a pathway which was barely lit by a short old fashioned lamppost with a round light and cover on top.

The dark shadow of the church was over to her right. It was a horrible night, cold and damp with a sort of white foggy mist swirling around. She sees two men in clerics robes hitch up their 'skirts' and run very fast down this path from right to left. They had black shoes, stockings and knee breeches on. The younger man was a bit ahead of the man at the back who was carrying some sort of book which he was clutching to his chest. She thought they must be in a hurry to get home.

N.B. Now she's finished her report she does a bit of research on this lovely church and finds out it was originally a Catholic church, which explains why she saw a monk. She also read about the ghost of the Green Lady who comes out of the mist rising from the river to scare children. She's wondering now if it wasn't just children she liked scaring on misty nights.

Post investigation

Andrew Fazekas did not experience any paranormal activity and there was no evidence of paranormal activity on media files. The batteries were fully working the next day and this was therefore put down to the damp and foggy conditions the night before.
