

Jansell House Roundabout Ghost

Luton

2016

Ghostly Sighting

A Luton Resident reported seeing an old man in his would say 60s/70s and wearing a long green coat with a del boy hat (also grey hair) and it's the roundabout next to Jansel house. He was seen him about 6/8times sometimes sitting sometimes standing he has even waved at the resident.

Subsequent Research by LPS revealed

The spirit might be that of a man called John. He wore a long coat and hat, he had grey hair and he was roughly early 70's he either sat or stood at the Jansel house roundabout just starting at nothing confused. Hhe would just suddenly walk off the roundabout to tesco to buy maltesers all the time! He had loads hidden in his house on Hitchin road but would stand on the roundabout or sit just staring at nothing.

One of our members cared for him and the police were called quite a few times as they were worried about his safety. John missed his wife who passed away a few years back (John passed away in 2009). John was a spiritual man and always would say he could see his wife
