

## Pirton - Motte & Bailey

18<sup>th</sup> June 2007

Leana and Bill

01:41 As we walked into the kitchen, whilst heading upstairs, Bill heard the sound of a woman as if she was talking to someone. At that time all of the team were in the bar area.

### **Main Lounge**

02:02 Camcorder and night vision light set up to monitor area where rocking chair (that moved by itself) stood.

02:05 Temp +19.5°C.

02:11 Leana reports that she is feeling cold, a very deep cold right down to the bone. She felt it as soon as she walked in to the room yet she was wearing a jacket etc. and the air was not cold. Bill did not feel the cold yet he was wearing just a sleeveless shirt.

02:14 Bill sees a flash of light on the television (which was off). It could have come from his EMF meter which was positioned in front and 2 metres from the screen but he did not see any other flash the rest of the time he was in the room.

02:16 Leana sees a flash of light on the ceiling 1m in from the window. It appeared to be about 60cm across and pale green in colour.

02:22 Sound of dog whining in room next door. We keep hearing someone talking.

02:23 Sound of moving furniture, location unknown.

02:30 Leana still feels cold in her chest and at the top of her arms. We can still hear talking.

02:34 Clunk heard from top left of roof (diagonally opposite door). This is the second time this has been heard.

02:36 Clunk again.

02:47 Clunk again but this time more like a crack.

02:53 Crack again.

02:55 Temp +19.5°C. End of vigil.

After the vigil, whilst back downstairs, Leana shivered and was cold for 5 minutes then it went away.

### **Teenager's Room**

Leana no longer feels cold.

03:17 The sound of buzzing like a bee which we both heard. It sounded as if it was coming from near the window.

03:30 Temp +20°C.

04:03 Vigil ends

### **Small Bar**

04:53 +20°C.

05:02 Vigil ends with nothing felt.

## **Small Lounge**

05:17 +20°C.

Nothing to report.

## **General**

Camcorder recordings were done of the rocking chair (now in the corner of the small lounge (1.5 hours), the main lounge where rocking chair had been standing (1 hour - infrared) and the large bar (1 hour - infrared).
