### Bull's Wood Summerhouse

Nothing to report

### Bull's Wood Obelisk

21:15 After Sam had fully recharged her mobile phone to use the camera for the investigation, whilst at the monument and trying to take pictures her mobile phone was completely drained of battery life.

21:20 As we stood around the monument, to the right of Elaine she saw a white figure move between the trees.

### Tring Park

21:35 Once through the kissing gate we were standing around deciding where we were all going, Elaine felt someone was standing behind wanting to know what we were up to, on turning around no one was there.

21:45 Whilst crossing Tring Park Sam felt as if someone was following us, Also at the same time Sam saw a shadow to her left dart across to the right of her and got *Phillipe, soldiers and horses*.

As the team headed away from the woods towards the A41, we walked up to the bottom of the bridge then decided to walk back an oak tree that Billie and Carla had been drawn towards. When we arrived there, Sam and Elaine expressed that they felt apprehensive. It was agreed that we would stay together in a tight group around the tree as a focal point. Billie sat facing the woods where we left the other team, Carla sat to her left and Sam and Elaine stood round the other side of the tree.

### Vigil 1: 21:55 to 22:30

21:58 Billie heard footsteps and wood/sticks straight ahead of her, but could not see any evidence of any people in close proximity.

Whilst doing the vigil under the oak tree Sam felt unnerved as though we was being watched, and kept hearing thuds to the right of her.

22:01 Billie felt a creeping sensation down the left side of her face, this was the followed by a warm wind on her left side and a very cold wind on her right side of her face. This was consistent through out the vigil.

22:04 Carla kept getting the impression that men were hiding in the branches of the tree on the look out, ready to pounce on the enemy.

22:06 Carla saw thousands of tiny orbs in the mist to her right.

# INVESTIGATION REPORT – Team 3

Investigation Site Wigginton, Tring Park and Ridgeway Path

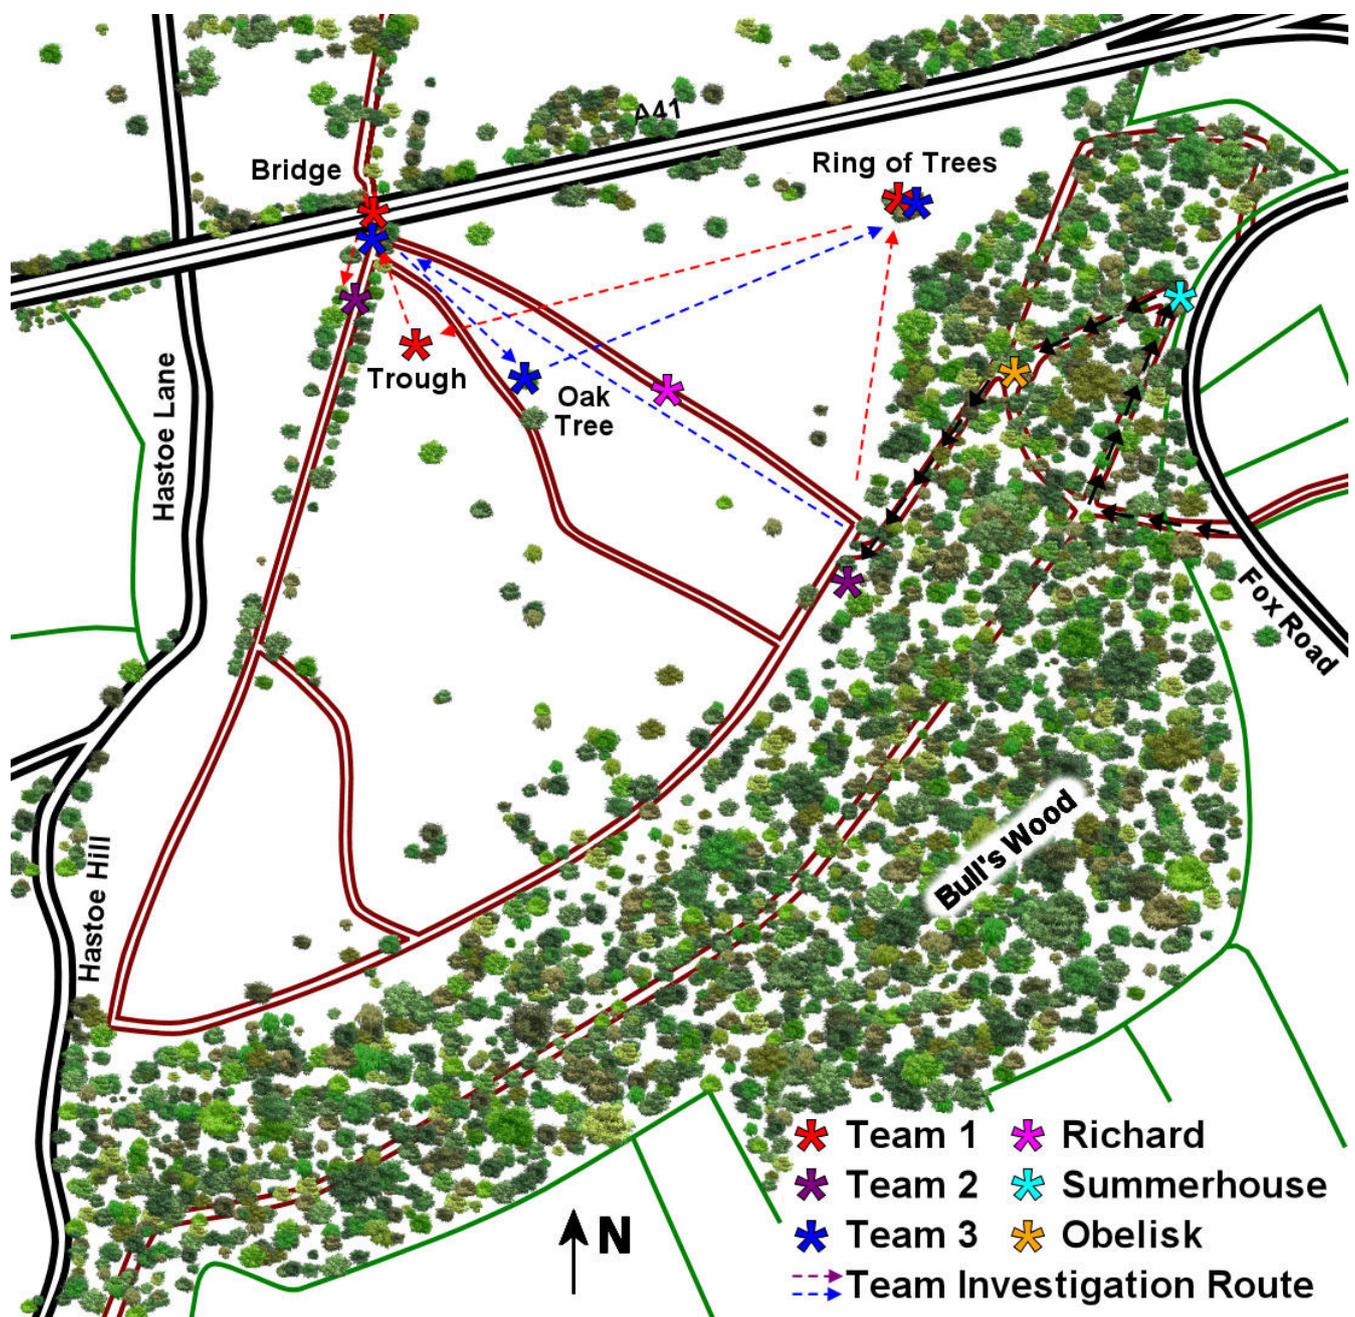

Investigation Date 8th October 2009

22:08 Elaine picks up on the name *Jason* and can hear whispering.

22:09 Carla felt that there was a male presence to her right at the edge of the canopy of the tree, and could see an indistinct black shape.

As Elaine was standing under the tree it felt eerie, one minute you could hear the traffic from the A41 and feel the breeze then all of a sudden it was still.

22:10 to 22:18 To the right of where Sam was standing was the A41, whilst the cars were passing she saw a dark shadow, which she thought was a bush or a small tree. Sam continued to face that way and as the next car passed it was no longer there.

**Investigation Date**      8th October 2009

22:11 As Carla was sitting there her ears started to ring. Her shins and calves went very cold.

22:15 Carla sensed the people hiding in the tree branches again.

22:17 Elaine is drawn to the group of small bushes in front of her and sees a white figure walking back and forth.

22:18 Elaine has a tugging sensation on her bottom left leg.

22:19 Billie felt a creeping and then a gripping sensation on her left ankle and this continued for around a minute. Billie then looked at her ankle with her torch and there was nothing visible and certainly no bugs.

22:25 Billie heard someone walking once again to her left.

### Post-Vigil

As the team walked down beside the A41, heading this time away from the bridge, Carla felt drawn to two parallel trees and felt the energy was strong there. Carla went to investigate as the rest of us stayed on the path. Billie went to investigate and did not pick up on any energies. Sam then Elaine went and checked this out individually.

### Séance

22:35 When Carla walked into the circle of trees the energy she felt there gave her a strong sense of fear and a pain in her chest.

The team then went to the next location, a circle of 5 trees heading back in the direction of the woods. Billie felt aware of a presence in this area. The team agreed that this was a good location to do a séance.

Three times during the séance Billie felt some energies around her. Billie and Elaine called out for any spirits present. Billie asked specifically for any spirits to touch her. During the séance Billie felt subtly physically pulled back on three occasions, whilst this was happening Billie was not aware if there was a down hill gradient. At the end of the séance Billie checked the ground and confirmed to herself that the ground where she had been standing was absolutely flat.

During the séance Elaine could see a gold cross with white stones in it.
