

Investigation Report

Investigation	38 Ravenbank Road, Luton
Investigation Date	11.02.2017 and 25.03.2017
Report By	Andrew Fazekas
Team Members	Andy F, Andy G Elaine E, Kerry G, Sarah C, Dee L.

Background Information

AC owned a house in Luton that she hoped to retain following divorce proceedings. AC has lived here around thirteen years until two years ago when she separated from her husband who moved out. AC now lives in Hitchin with her new partner and is hoping to rent the Luton house out, but needs to know best way to deal with spirit activity in the house before future tenants move in.

Paranormal events experienced include smells - both foul and florally; orbs/rods - seen both through camera and with naked eye in broad daylight; icy cold spots; adult size 'pixelated' area in dining room; small pets being let out of cages and being found in wardrobes in early hours; name calling; hearing someone come in back door; rattling cutlery in drawer, footsteps up the stairs, shadow under closed door; x-box disc living in machine for playing, found balanced on bracket behind TV, full length body weight on bed behind AC; scratching; being shaken awake when dozing on sofa; a friend being pushed through doorways; hearing name being called; being poked in back when sleeping; hearing short 'zip-zip' bee-like buzzing sound in ear when trying to sleep at night; vibration down centre of mattress - nothing felt on edge.

AC would very much like to find out what's going on! Events happen day or night. She had 'words' sometimes and things calm down but not for long. Can be worse early autumn, and was definitely worse when moved in and re-decorating/refurbishing which she knows happens. AC always lived in houses with spirit (and holiday bases too) but she would not spend too much time in this house now alone, certainly not overnight, having lived in her present house for two years and found it to be largely 'clean'. Atmosphere constantly changing, sometimes for some weeks there was absolutely nothing, and other times everything all at once.

For the purpose of gathering information it was agreed that LPS would investigate on two separate dates a few weeks apart in order to gauge paranormal activity taking place.

Investigation One on 11.02.2017

Pre -investigation

Upon entering the house a few members of the team felt that there was a feeling of depression in the house, while setting up equipment members of the team found a cold spot up at the top of the stairs. Kerry felt as entering the living room someone sat in the chair behind the living room door, other members felt someone sat in the arm chair next to the window.

On the first walkthrough, Dee felt a big change in energy at the top of the stairs on the landing. After taking many baseline readings with the EMF meter, she and Andy G confirmed that there was an electricity cable running underneath the top stair/landing causing major EMF spikes. This could have been causing the fluctuation in energy that Dee picked up on psychically. Another psychic energy hotspot for Dee was the bed in the master bedroom. Dee very strongly picks up on a Welsh connection throughout the investigation.

Dee is also very certain that whatever/whomever is not connected to the house per se, but comes and goes. Dee is unnerved by the complete silence of the house generally - it is unnaturally quiet for a home (no creaks, bumps, heating pipes, settling noise).

Investigation

Master Bedroom Area

20:01 Kerry, Andy G and Dee heard a clunk noise in the small bedroom and Kerry saw a flash of light in the small bedroom. Kerry and Andy heard a Click noise from the kitchen

20.14 Olivius 5 (which is a small device used for alleged spirit communication) came out with the words “unholy, Jumped, and crayon”. At this time Kerry could see fog at the bottom of the stairs, While most of the Team felt dizzy at the top of the stairs.

20:25 K2 meter (which measures Electromagnetic fields) was flashing in the main bedroom and another K2 meter was flashing in Andy’s coat pocket which was hanging up in the hallway which was evidence of an Electromagnetic field being present.

In addition to this another device that is used to allegedly pick up spiritual energy and is called a REM Pod was also flashing. The team encountered a temperature drop at the top of the stairs and one of the team, Kerry felt hot breathing on her face. The Olivius 5 responded with the word “why?” when Dee was asking a question about the Olivius 5.

Living Room Area

Back downstairs in the living room the team started talking about refurbishing the house to see if they could get a reaction from spirit. The team encouraged spirit to make themselves known by going near the Rem Pod in order to make it light up.

The team also lit a candle and invited the spirit to blow this candle, or make a bang, or make a tap. Dee got the name Doris and a beeping noise came from behind Kerry and Dee. The team heard a growling noise and investigated for a source of this but nothing was found. During this period the team felt that there was more than one spirit here and that there could be a welsh connection. Dee and Kerry heard a movement upstairs

21:21: Kerry saw an Orb go straight across her eyes. Dee felt her throat feeling tight and her chest; also the team experienced the front room getting very cold. Kerry had a feeling that spirit had needed an emergency tracheotomy. Members of the team heard a lady’s voice when the question was asked if in life they had struggled up the stairs, Dee and Kerry felt pressure on their head, Dee still could feel a male presence. Dee and Kerry heard a moan noise coming from behind them. Kerry asked if the spirit was lonely, Dee felt the spirit say mind your own business I don’t want you here, then the members of the team heard a noise coming from behind Dee and Kerry.

Olivius 5 responded with the word “heard” when asked if it was the male left on his own when the wife died first? Andy asked if Spirit would like us to sing a song... There was no response to this question. Kerry and Dee felt a vibration under their feet and Dee got the name Walter come to her. Andy G asked if there were any children here with us? But there was no response. Dee kept hearing breathing loudly and heard weasing up the stairs.

The team were very surprised how quiet the house was, not even normal noises a house can make, just complete silence. The Team were talking about Ouija boards and Kerry felt that this was something that the spirits did not want done. Where the telly is behind Dee there was a very loud crack noise

23:25-23:55 Séance

The group decided to do a séance in the dining room, Kerry saw a lady stand behind Sarah but was not connected to the house, Kerry gave a message to Sarah and felt that the lady was a very kind loving lady who was there protecting her. The team also got an elderly couple They were not in agreement with what we were doing, as if it was against their religion, at one point the spirit man was slightly angry at us for asking questions as it not any of our business.

Dee feels very uncomfortable and aware of a feeling of extreme discomfort about what we are doing (i.e. paranormal investigation). At one point during the seance, Dee feels movement under the table and is also pinched very hard on the lower right leg. No mark is found, but the sensation is very intense.

Andy G mentions Joshua 3:6 and was feeling the spirit getting to close so the group helped Andy G and asked the spirit to come away from Andy G and not get so close. It was clear that spirits did not like the séance going on so this was ended and Kerry undertook a process of making sure that this had been closed down properly.

Lounge Bible reading experiment

00:05 Bible reading by Andy F - Romans 8:31-39

00:49 Dee feels the energy in the room change and her ears start 'buzzing' (a sign of psychic activity for her). Immediately after this, Kerry's voice recorder goes completely dead - battery totally drained

Master Bedroom experiment

Andy G, Kerry and Dee went up into the main bedroom and sat on the floor in the dark whilst the rest of the group stated downstairs monitoring the CCTV on a screen for any signs of paranormal activity.

01:15 Another of Kerry's recorders goes dead

Andy G leaves the vigil due to feeling unbearably uneasy.

Dee is again pinched very hard on her lower right leg (shin) - no marks seen, but feeling is very intense. Dee does not feel any particular presence in the room and is not at all uneasy - unlike earlier in the evening when she felt very definite energy in the bed area.

When Kerry looked at Andy his face was disfigured, Kerry asked Dee if she could see it and she said "yes". So Kerry and Dee said to Andy to go downstairs as Spirit was trying to get Andy into a physical trance state, Dee and Kerry stayed for a bit longer but nothing happened so decided to make their way back downstairs.

Near the end of the investigation, Dee is sitting in the recliner chair and is chatting to Kerry (who is standing opposite near the dining area) and is suddenly overcome (scared) by the very strong feeling that someone had come and sat down in the chair next to her. Kerry notices her discomfort immediately and asks Dee what is up. All the hair on Dee's neck stood up during the encounter

01:40 Investigation ends

Investigation Two on 25.03.2017

Pre-Investigation

For the purpose of the second investigation the team used a different approach in not using so much technology and instead asking AC and her partner to be part of the investigation to see if AC was the focus of the activity. AC would be there for part of the investigation only and then would be asked to leave and come back when the team had finished the investigation.

Upon entering the property again, Kerry saw a man sat on the sofa next to the door, also again the silence of the house was unusual.

Investigation

Lounge

18:43 Dee hears "Look for the dictionary" and is puzzled. A thesaurus is found and Sarah opens L'... lodger. This was exactly the same word Andy F had had been saying the investigation is going to be conducted more along the lines of the team behaving like lodgers in the house.

Dee was told by spirit about the number 696 and on page 696, the first word was 'secular'. This was the theme picked up on both investigations and it was felt that the team were not wanted and 'they' were angry possibly because 'they' don't see the team as decent god's law abiding people, as the team were are interested in contacting 'them'.

19:00 Dee is sitting in the big chair (not recliner) and feels distinct air movement - a very cold draught, which many others of the team verify but cannot find the source for this

Kerry saw a Shadow person in the dining area when the team were talking where he then came forth wagging his finger at Andy F saying "Shut up" repeatedly and then vanished.

Kerry's voice recorder was turned off? When it was originally on and the battery was full and the same had applied to Andy F camcorder on the previous investigation when it was placed on its own in a room with no one around it. Kerry and Dee heard footsteps upstairs in the bedroom.

20:54 Dee feels seven short taps in/on her right ear.

20:55-Sarah heard a man's voice by the recliner chair in the corner of the lounge

21:05 Kerry and Sarah heard voices in the hallway

21:15 Dee is pinched hard on her right shin (this also happened at the last investigation).

21:32 Dee (and others) hear a small cat-like sound near Andy F, who is seated on the sofa nearest the door.

21:30 Sarah heard a cat meow then a midrange hmm

21:37 Dee hears another small noise between Kerry and Andy F (both on the sofa)

21:39 Sarah heard a child's moan

21:59 Dee hears "696" and suggests that maybe it's a page number for the 'dictionary'. Sarah looks up and the first word on the page is "secular".

22:05 Dee hears the name "David" at the same time that Andy F feels tingling and Andy G mentions the Lord's Prayer.

22:45 While Andy F is talking about previous LPS member, Carl, and the exorcism her performed where he "called down Gabriel" a moan is heard by several members (very creepy).

22:50 Dee feels tingly and cold on her lower legs.

22:51 Dee hears ironic laughter in her head.

Top of the stairs landing and stairwell

During a Q&A session using the beeping of the rem pod (placed in the small bedroom), it seems that the spirit (?) is not happy that Annette doesn't live in the house anymore.

20.08 Dee is sitting on the top step and jumps out of her skin when she sees a fleeting dark shadow go across her legs and feels a definite rush of movement go past resulting in a big creak on the next step down!

00:40 Investigation ends

Post Investigation Evidence

Electronic Voice Phenomenon Experiment

Various sound recorders were used over two evenings of investigations with the following results captured on audio. The spirit responses are voices heard on the audio recordings that are not team members or the property owners and there is no explanation for these voices on the recordings.

Question – Can you make the different coloured lights flash for us please?

- Spirit Response – No

• Question - Are you just visiting here?

- Unknown source of response – I've been seen (Dee thinks this could have been her speaking)
- **One team member states Barnet and another team member respond “oh Barnet”**
 - Spirit interaction is heard saying what sounds like Barnet conqueror

Film

During filming a number of orbs and light anomalies and one illuminated spider were caught on film. A number of these orbs could be put down to dust or other pieces of debris floating on the air currents. However some light anomalies and orbs could not be explained and no cause has been found for what they were.

Conclusion

During the two investigations the team felt that the temperature would sometimes dramatically change from comfortable to freezing especially in the upstairs front bedrooms. Team members feel that this is the same “spirit residual” also feeling of that this is a pathway to past memories of spirit that would daily go through this house when it was just farm land or wasteland?

There was a lot of unexplained movement in the small bedroom as indicated by the equipment used and conversations using the equipment that could be classed as paranormal. It is possible that spirits do visit, and maybe they are annoyed if they find people not abiding by holy law. Maybe ‘they’ are also annoyed with the young lad in the small bedroom, who seems to have a bit of an interest in the darker side of life! Maybe they were trying to tell us this. There is also a possibility that a man and his wife who lived in the house previously are the dominant spirits.

There is also the possibility that AC herself has some sensitive ability which is why she has a lot happen to her but there is no evidence to state that they are haunting her and this would explain the energy that she picks up in the house along with her partner.

During this investigation it is also acknowledged that some paranormal experiences had nothing to do with this investigation. But were the result of personal contact for members with the other side that were just opportunistic and unexpected paranormal interaction at the time.

Summary

Is the house haunted?

There is definitely something in the house but it is very hard to pin point what. The team members are all agreed that whatever has taken place within the house over the past few years has in some way imprinted itself onto the property in much the same way as an audio recording would (please read stone tape theory) and can be picked up by people who are more sensitive.

In order to state that this property is haunted, LPS would need to be able to provide the owner with irrefutable evidence and proof of a haunting such as evidence of an apparition either witnessed by the members or caught on film. Whilst some form of paranormal activity was experienced and recorded it is the conclusion of LPS that the house itself is not haunted by residual activity.

At the top of the stairs there was an energy build where it felt unsafe to stand at the top of the stairs due to feeling of may being pushed or falling down? A natural human fear or spirit and that remain part of the question?

However it is acknowledged that some spirits do pass through the property from time to time for reasons unknown at this time and this includes the two possible spirits of a man and a woman who the team believe to be possibly former residents of this property. But these do not appear to pose any risk to people who may live at the property.
