

Private Residence (A) Investigation

12th November 2005

Team 1 - Marion, Karl

Team 2 - Bill, Leana, Andy

Team 3 - Leana and Karl

Additional information provided at briefing

- The ball from the tracking device used on *Mrs A's computer has gone missing. This is a large ball about 60mm across.
- Recently keys have been placed on the coffee table and they would be found moved elsewhere. Now keys are kept in the kitchen and this no longer occurs. The kitchen was chosen as nothing happens in that room.
- *Mr A used to wear a bracelet and ring (bought as a celebration of their marriage) but these have now gone missing. He does not wear them for work due to the nature of his work so they must have gone missing from within the house.
- A couple of years ago dark staining appeared on the living room wall. This lasted for several days and was in the form of rivulets as if something was flowing down the wall. When redecorated it took several coats of paint to cover the marks. Staining was to the right of where the chimney stands (fireplace has been removed and area covered over). No sign of corresponding staining in the master bedroom.

Team 1 Investigation of Master Bedroom

2115 Karl reports having a bad headache and feeling restless. He experienced the sensation of a running or bleeding nose. Had a feeling of losing an item. Feeling tired but just in the main bedroom

2130 Nose or throat

2200 Karl reported that he didn't feel comfortable around the doll and pram. Karl also felt that he had a very painful left eye. He received the impression of a young man and a grandmother. Also a sense of itching and scabs. Doll is a problem.

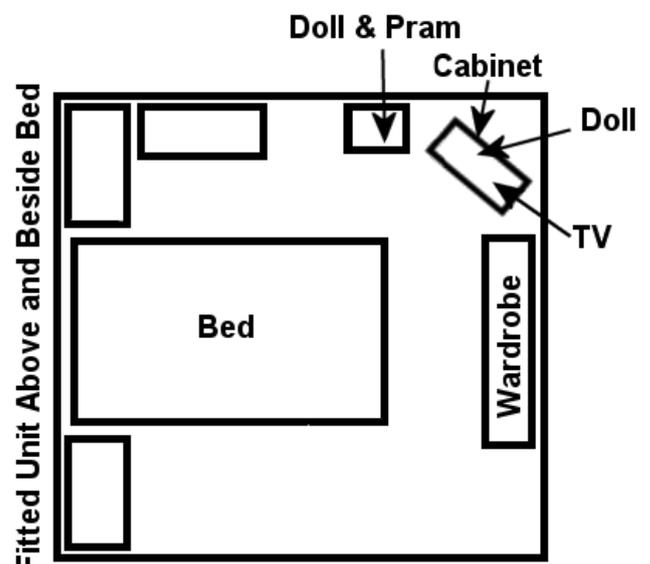

2234 Standing in front of TV Karl saw some sort of light to his left. Picked up on the name Sam or Samuel. Impression of cutting meat.

Team 2 Investigation of Master Bedroom

Start 2335

2338 As Bill sat down on the floor he heard a distinct creak from the area of the right-hand bedside cabinet/wardrobe. This occurred several seconds after he was in place (see general room plan).

2340 Leana feels that room is imposing. She does not like a doll on the cabinet at all. She gets a negative feeling from it. The doll on the floor looks worse but she does not feel anything from it just the one on the cabinet. Generally Leana doesn't like dolls but she doesn't feel that that is why she doesn't like the doll on the cabinet (after all she has no negative feelings towards

the one on the floor).

2342 Leana does not like the wardrobe, she does not even like to look at it.

2345 Temperature 15.5°C to 16.5°C, 13.5°C on the wall by the window.

2350 Leana reports that her hands feel cold. Measured 24.5°C compared to Andy at 31.5°C and Bill at 34.5°C.

2353 Leana reports that her right arm feels numb.

2356 Leana reports that she feels better.

2357 Andy stands by second door from the left of the wardrobe with his right side towards the window. Reports that he feels goose bumps down his right-hand side. He said that on Monday he felt 'unnatural', like icy cold.

0001 Measurements of hand temperatures reveal that Leana's are now at +29°C, Andy 30.5°C, Bill 34°C.

0006 Bill saw a bright spot in the bottom left corner of the wardrobe (near the cabinet) and about 20cm above the floor. At the time Andy was standing by the second wardrobe door from the left. Bill also saw a bright streak a few centimetres from Andy's right knee and reaching from his knee almost to the floor.

0011 Leana says that she is feeling sick.

0012 Bill reports seeing a bright blob on the wall 50 cm to the right of the light switch and 20cm below.

0016 Leana reports that her left knee feels cold but not her right.

0020 Leana measured her left knee temperature at 20°C, right knee 23, top of right leg 28°C, top of left leg 24.5°C. At the time she was wearing a long dress that reached to the floor and her legs were covered.

0029 Leana reports a distinct smell of citrus, lemons and oranges.

0035 During the investigation Bill, who was sitting on the floor by the window, left cold on his right-hand side, at the time he put it down to a draft from the window. At the end of the investigation Leana stood in the same area and said that she felt cold on her left-hand side irrespective of which way she faced.

Team 2 Investigation of Master Bedroom

General comments made by Leana after the investigation.

During the vigil in the room Leana's left knee went cold, several degrees below her other knee. In a split second it had warmed up to the point of being hotter than her right knee. She found that she was shaking uncontrollably which she had also done just before going upstairs with Team 2. She also saw shadows moving across the wardrobe. She got the feeling that something was not just standing in front of the wardrobe but that it was coming out of it from the middle. She did not know what it was.

Anomalies Observed on Main Bedroom Monitor

2225 Orb on TV screen going downwards.

2228 Orb floating downwards.

2229 Orb across screen.

2230 Orb.

2235 Orbs all over screen in room.

2240 Orb above Karl.

2241 Orb on chest of drawers.

2243 Orb across screen.
2244 Two orbs down screen.
2245 Orb above Karl.
2246 Orb across screen.
2246 Flash above Marion.
2251 Orb floating.
2256 Orb.
2259 Orb top of screen.
2303 Orb down left of screen.
2310 Orb top of screen.
2313 Orb across screen.
2315 Camera is moving x3.
2316 Camera is moving.
2320 Camera is moving.
2320 Black shadow across window.
2321 Orb across and moving, lot of activity.
2322 Movement, lots.
2323 Movement, lots.
2323 Orb.
2325 Orb across TV.
2327 Orb across screen.
2327 Large orb up.
2328 Another orb.
2330 Team 2 gone upstairs.
2335 Orbs all around Leana.
2337 Top left-hand corner.
2337 Top to bottom, centre.
2337 Top around Leana.
2337 Chest of drawers, Leana pointing at this orb across screen.
2340 Top left-hand corner.
2343 Leana's head.
0015 Orb top right, down and sideways from chest of drawers.
0015 Two orbs across, slanting
0015 Big one in front of window.
0017 Shadow in front of window.
0020 Orb top to bottom.
0025 Down towards Leana while her hand was up.

0026 Left to top.
0027 Top of screen.
0028 Top middle to bottom.
0030 In front of chest of drawers.
0030 Shadow in front of curtain, left to right.
0032 Leana standing up, two then another from her and above.
0037 Team leaves room.
0055 Light flash above Leana's head.
0100 Orb down screen.
0110 Orb.
0120 Something across wardrobe.
0120 Orbs.

Post Investigation Observations/Analysis

Two days ago Karl felt something that didn't want him to be there, he felt nauseous and as if something was strangling him. He felt as if some entity was feeding off fear. Tonight he felt that there was a new spirit person that doesn't want to be known, it was raising a barrier. He sensed a 16-year-old boy who wanted to make mischief, he would pinch you and laugh and he moves things. He wants to hurt people but didn't do anything to Karl and Marion, as they are not scared of him. Karl sensed he was a scrawny lad from Birmingham who worked on a barge; he also had the impression of coal. Karl asked him why he was nasty and was told that his father had been nasty to him so he wanted revenge. He wouldn't say how he got there (Mr & Mrs A's House). As a modern analogy Karl compared him to a hoodie. Now he says he is bored, he knows he is on his way. Karl feels as if someone has opened a door and let him in. Karl intends to try to close the door. Marion came up with the name Ellis and said they were related to Mrs A. Karl gave the name Samuel. In fact Mr & Mrs A report that a previous owner had used the living room as a bedroom and that he died in the room. This was 6 months before Mr & Mrs A bought the house. The previous owners were *Mr & Mrs B. Mr A says that the B's were a family of haberdashers. Sam actually tried to possess Karl. Karl reported that he was wearing a mask, trying to hide who he is. Karl says he is also cheeky. Mrs A has also felt that this spirit was hiding itself.

Karl felt that the spirit on the stairs is a childish adult and it is he who turns on the smoke alarms. He was not present when we were there, as he knows what is going on.

Previously Karl got the impression of animal carcasses and butchery (research has shown that this does have some historical relation to the area). Karl also said that someone had lost a ball. Mrs A had lost the ball from her trackball after our first visit. Karl said that he felt a cat had got it.

In the master bedroom Karl felt there was a woman, a grandmother, standing near the chest of drawers. He feels she was the headmistress type, strict and upright.

Karl was unaware that Mrs A owned a Parrott when he reported that Sam hated the Parrott, he could not understand the relevance of this until he was told about Mrs A's pet. Karl asked Sam if he had killed Mrs A's previous Parrott. Mrs A's Parrott had been perfectly healthy one day and dead two days later. The Parrott that died was called Bob, the new Parrott keeps saying 'hello Bob' which is something he has never been taught.

Mrs A felt that Sam had influenced their lives recently especially regarding the failed home sales. Karl's guide has told him that he should use the angels Gabriel and Michael to cleanse the house. Mr A felt this odd as Mrs A has numerous angels in the house (figurines etc.). Karl then proceeded to cleanse the house upstairs and downstairs including the cupboard under the stairs.

* Names have been changed to protect the occupants of the property.

William H. King 13th November 2005
