Pre-Investigation

Friday the 24th of June 2022 the team from Luton Paranormal Society were chomping at the bit to get out for the evening having previously investigated almost a month before. Ever present members Andy, Ben, Maria and Racheal D made the trip from Luton to the small village of Bramfield in Hertfordshire situated to the East of Welwyn Garden City and south of the village of Knebworth to a location known locally as Sally Rainbows Dell and known to be an area that a Witch had once resided in solitude in a small, wooded area about 150 metre walk from the village.

Since the last time LPS investigated this location in October 2015. There is a barbed wire fence that has been put up you can no longer go down into the quarry itself and therefore the investigation was limited to staying on the right side of the fence.

Ben conducted the protection prayers before they began their investigation ensuring all within the group were protected.

Once at location the team quickly realised that the 'Ditch' or Quarry area that had previously been accessed by the group on a previous visit was now surrounded by a barbed wire topped fence making access to the site unrealistic for safety reasons. A very strange item of clothing in the way of a red lingerie was draped over a nearby log which attracted the keen eye of Ben (As usual) and it was decided that as this was an area overlooking the side of the Ditch that it would be the chosen location for the first of the nights experiments.

Investigation

20:50 Investigation begins with a silent vigil for team members to tune into the surroundings and see what they could pick up. Racheal uses her digital recorder after first listening and sensing if she could feel anything or sense anything. Racheal didn't pick anything up within this silent vigil

20:55 Andy thinks he observes a black shadow person poke his head up about a mound in front of the team very quickly but puts this down to conditions at the time of the light fading.

21:00 hours the vigil was concluded, and Ben relayed to the rest of the team that he had sensed that the team was being watched from all directions and that he felt the item of clothing present had indeed drawn the team to a good spot.

21:03 the team decided to conduct an experiment using the Hexcom or new Olly as it is affectionately referred to. Ben placed the K2 EMF meter in the centre of the group on the floor.

Hexcom Experiment

Andy tells the team "I hope we do not get any demon names tonight and the Hexcom comes out with the words "you win"

Andy asks who is with us and the Hexcom response is "Kelly"

Upstairs

The team ask if spirit can light up the cat balls and the Hexcom Response is “Zero”

Jar

The team ask are you a witch and the Hexcom response is “Taken”

Racheal started to feel tired and drained, she doesn't talk of this, and continues on thinking maybe she is tired from work etc. Racheal explains to any spirits there to come and speak into the little black box she is holding.

Racheal starts to really feel tired and drained, question can you touch one of us?

Wind picks up) Andy then asks Racheal to start the EVP session, Racheal then explains to the team she can't that she really drained, Andy asks her if she is ok, Racheal says she can't find the words to do the session, she is feeling as though her energy has been sapped from her. There were other reasons for Racheal to be feeling like this, they were not paranormal however this hadn't happened to her in any other investigation before.

21:23 Andy is stating that spirit must not take energy from the team.

Ben states that he can hear what he thinks is laughter coming from his left-hand side which is in the direction of the 'Ditch' and believes that it is coming from several people. He looks but cannot determine the origins of the laughter

Maria tells the team she is getting images of someone laughing!

Racheal hears faint laughing/talking through headphones, Ben also starts to hear faint laughing in the distance.

Racheal starts to hear things through her headphones, laughing sounds, could be a bird as the team did notice the birds above making some noises as they flew by.

Racheal explains to the team she doesn't mind spirit using her energy if they are trying to tell them something but not to drain the **** out of her. Racheal hears through her headphone a man laughing she immediately tells the group, excited of what she has heard HA...HA...HA...HA... Racheal tells the group this was a clear laughter!!! She was excited to hopefully have captured this on her recorder.

Human

Ben asks spirit to light up the balls or make the K2 change colour no response at this time.

Racheal questions spirit is there anyone trying to use my energy right now, can you please let me know?

Racheal stands up by the tree to stretch her legs.

Questions asked: was you murdered or natural causes??

Racheal hears something through the headphones.

Maria starts to itch, and questions spirit are they making her itch??

Cat balls flash just as the team start to get ready for their break x2 the team ask spirit if they will continue with the communication as they proceeded to get ready for their break.

21:34 hours one of Racheal's motion detector balls activates with a series of quick flashes. These had been placed on the log next to the item of red clothing which for note was not touched or moved by any of the team that evening.

Hexcom comes out with the words.

Length
Dresser
Mommy
Paper
Rage
Second
Week
Cream

21:57 hours the team moved around to location two and an area at the back of the Ditch and very close to a public pathway. Both Ben and Racheal decided to place flashing motion detector balls. Ben placed two on the ground in front of the group and Racheal placed hers on a log to the right-hand side of where she was sitting. Cat ball activation straight away Andy bringing humour to the investigation as the name Kelly had come through, he asks does Kelly like Dick, does Nancy like Dick? (Dick Turpin) which had the team laughing!

The motion detector balls on the ground activated almost immediately before Ben had a chance to sit down. The K2 Emf meter was also placed on the floor between the motion balls and Andy placed his Rempod on the floor also. Further activation's recorded at 21:59 hours and 22:03 hours respectively that were caught on the video camera of Ben's I-PHONE which was incidentally set to flight mode throughout the evening's investigation.

22:03 cat ball

Team asks the following questions.

- Were you murdered here?
- Did you hide here?
- Did you meet your lover here? Ben tells the team his pens light has just died??

22:04 hours Andy turns on Hexcom which immediately throws out the word TRICK followed by two further motion detector ball activation's recorded at 22:06 hours and 22:07 hours

Further questions asked

- Did you die here?
- Did you live here?
- Did you do witchcraft here? Cat ball activation
- Did you do white magic or dark magic?
- Were you murdered?
- Did you have a spiritual gift?
- Is that what led you to witchcraft?
- Were you misunderstood? Cat ball activation x2
- What's your name?

OBANA is the next word that flows from the Hexcom in response to a series of questions asked by Racheal

22:10 Andy asks do you want to come over this side and communicate? Cat ball activation Andy and the team quite impressed the balls have been activated a few times in response to questions asked. Andy tells the group this could be Wi-Fi causing this??? Andy asks spirit to flash the ball again and on that the ball flashes on request the team laugh as Andy didn't expect this.

22:11 Andy asks can you light up the catballs and the cat balls light up
Ben lights his torch up and talks to spirit asking them to light up other cat balls
Hexcom- CANDLES, AXE

Questions asked

- Did someone hurt you with an axe?
- Were you a woodsman?
- Is there a women spirit?
- Is a child here?

- A dog?
- A man spirits
- A cat?
- Do you visit here?

Ben thanks spirit for coming and communicating.

Hexcom words EAR- COVERED-The team all say Racheal, spirit is talking about Racheal as she is the only one with covered ears as she is wearing the headphones.

Are you talking about Racheal?

Hexcom words – FOREST

Questions asked Is Racheal a witch?

Racheal and Maria both chat about witches and how they would love to be one Racheal said she would love to be a white witch.

Hexcom word- H E M A T U S

The team explain to Racheal this is not a good word, Andy asked if the word can be looked up maybe this has another meaning? Ben and Maria both explain this word is demonic. Andy explained he had been advised if this name ever come up that the advice would be to run!!! Racheal questioning this maybe its just a word and maybe doesn't mean anything bad is going to happen. Cat ball flashes!!!

The team take this as a nudge from spirit that yes, they need to leave.

The team all decide this would be a good idea and thank spirit for all the communication they have had.

A last activation on the motion detector balls was recorded at 22:20 hours before the investigation was concluded and the team walked back to the vehicle just before heavy rain started to fall.

22:30 Due to a monsoon of rain coming down the team conclude the investigation with a coffee.

EVP evidence captured 1st Location

1. When the team had just completed their silent vigil Ben had just been explaining what he sensed, regarding feeling spirit watching us from all around, and about the red outfit, Racheal says she wouldn't touch it, you don't know what bodily fluids are on that? EVP Female saying "GRIEF" (very clear voice)
2. After the team ask the question does this clothing belong to you? Wind picks up. Racheal then asks spirit Kelly to talk into the little black box EVP female voice saying "I CAN'T SEE. Racheal at the time did hear something on the headphones but couldn't make it out at the time, she tells the group that was something. Racheal tells the group she is going to listen back, straight after this EVP Male "HURRY"

24. Racheal and Maria talk saying they were just talking about witches; Racheal says so he is meaning HEMATUS IS HERE EVP Male "HER"

Team Analysis

Ben

This was Ben's first visit to Sally Rainbows Dell. Extremely active location and one that Ben will look forward to investigating again in the future. Ben felt that the team was being watched throughout the evening and the responses on both the Hexcom and the motion detector balls were positive. A definite haunted location which is truly worth a visit.

Rachel

A very good investigation, lovely place great response with the Hexcom and cat balls. I am really pleased we got so much activity that night with our equipment and senses. I am very impressed with all the recording evidence; I don't think we actually realised how much we were getting that night. I was definitely picking up on spirits energy that night, causing me to be so drained! We got one of the best evp laughs! Can't wait to share with the group. Always love being so thorough with evps as it confirms so much for what the group may sense or feel in some way. I would love to go back here again. The naughty outfit??? That was so strange to be just left on a log like that? I feel we was supposed to be based there. someone or something wanted to be heard???

Andy

Like many of the locations LPS has investigated of twenty years this one has also changed regarding what you could investigate before and what you can investigate now. The red dress definitely drew us to the right spot, and it was certainly an interesting night especially when the trees overhead move with the wind giving it that spooky feeling and then stop still. I thought I sure something, but it could easily be debunked given the lighting conditions. However, the direct responses by spirit to questions asked were valid along with the EVP as evidence that there was something in the woods with us that night that was unexplained.

Marie

Throughout this investigation I did sense a horse, and being watched and at one point I started to itch for some reason.
