

## INVESTIGATION REPORT – Team 2

<b>Investigation Site</b>	Salford
<b>Investigation Date</b>	28th March 2008
<b>Report By</b>	Stephanie Lawn
<b>Team Members</b>	Steph, Marion and Richard

### Pre-Vigils

Nothing was picked up on the initial walk around Broughton Road and Brittens Lane except for Marion (see general notes).

### Vigil 1: Broughton Road 21:50 to 22:35

22:08 Marion sees a flash of white light in the field opposite just beyond the fence.

22:15 Marion sees a small blue light on the verge on the opposite side of the road near Richards Dictaphone.

22:22 Steph sees a large pale yellow light between Richards back and the hedge/trees, which pulsates twice.

When walking back in the direction of Wavendon Road, Steph feels a pull in her stomach as she walks past the gap in the hedge (where the pub can be seen).

### Vigil 2: Brittens Lane 22:53 to 23:38

22:59 Marion sees a long flash of yellow light above the house and tree situated on the corner of Brittens Lane and Wavendon Road (house on the left as you look from Brittens Lane towards Wavendon Road).

### General Notes

On the two walk rounds; Marion has a fit of giggles, feeling happy and silly at the same spot in Broughton Road. This only seemed to occur when walking in an anti-clockwise direction.
