

INVESTIGATION REPORT – Team 1

Investigation Site	Riseley
Investigation Date	26 th November 2010
Report By	Andrew Fazekas
Team Members	Andy F, Nathan, Adrian, Trevor, Andrea

General

The investigation was based mainly in the village of Riseley and surrounding area locations of Eastfield's Corner and Tom Knocker's Pond, of which this last location was not attended by Nathan. This was a very cold evening at about freezing temperature when we first started with clear sky and strong half moon, hardly any breeze. Mild local activity of villagers that were attending the church that evening and visiting houses nearby.

Pre-Investigation

Arrived at meeting point along Church Lane at 20:30. A strong turn out for the evening of which different size groups were divided up to take turns in investigating three locations.

Church Lane

Pre-Vigil: 21:00 to 21:15

A séance was held outside the front of the church by members forming a circle and using an EMF meter that was placed on the ground inside the circle. There were no results from this.

Vigil 1: 21:30 to 22:00

For this vigil Adrian and Andrea are located at the church gates. Nathan is located halfway down the road opposite the entrance to a small alleyway. Trevor is further down the road on the opposite side facing some houses. Andy is located at the end of the lane where there are some metal barriers where a river runs underneath the road. For the positions of the team members see the plan on the next page.

21:30 Trevor takes an EMF reading of 0.1, no results.

21:35 Nathan stays at the middle of Church Lane at the side of the road where a gate entrance to a field is located. Opposite side of road has village residencies and a public footpath. Very quiet in general, occasional car and overhead plane sounds.

Adrian measures the road temperature at -2.6°C, the lane air temperature at -7.4°C and the gate post of church temperature at -5.8°C. K2 meter registered 1.5mG.

21:36 Andrea experienced laboured breathing.

21:39 Adrian and Andrea hear scuffling noises in the undergrowth (probably animal noises).

21:40 Adrian and Andrea hear an owl noise.

Andy can hear the sound of wood hitting wood.

21:41 Adrian and Andrea note the noise of plane going over.

21:43 Adrian and Andrea hear scuffling noises coming from a house on the right (probably the same animal)

21:45 Nathan moves to the other side of the road to the entrance of the public footpath between two cottages. Only sounds to be heard are overhead planes and heating systems of the two surrounding cottages.

Andy hears the sound of a large animal moving behind him in an area covered by high bushes and at the same time he observes a car appear in the lane then turn off.

21:48 Adrian and Andrea hear the sound of dog barking in the distance.

21:50 Adrian and Andrea hear the sound of a branch cracking.

Nathan can hear the other group members to the end of Church Lane and car noises in the distance. No other odd occurrences experienced.

21:56 Andrea felt like she was being dragged by the neck down the lane away from the church.

21:58 End of first vigil as team members change over ends of the lane Adrian measures the road temperature at -2.2°C , the lane air temperature at -7.1°C and the gate post of church temperature at -5.8°C . K2 meter registered 1.5mG.

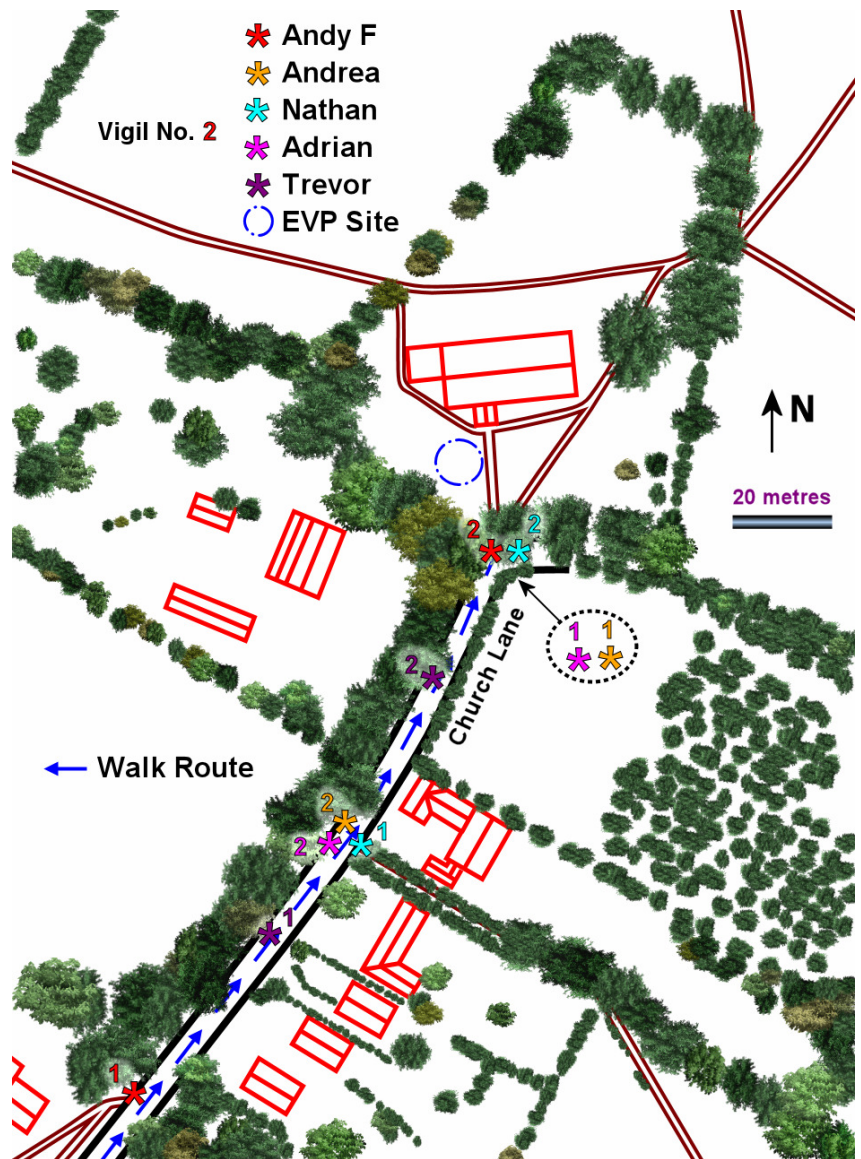

Vigil 2: 22:00 to 22:30

For the second part of this investigation Andrea and Arian are located by the gate to the field. Andy is at the church entrance gate and Nathan is to his right on the pathway nearby. Trevor is located halfway down the road. For the positions of the team members see the plan above.

22:00 Trevor takes an EMF reading of 0.1, no results.

Nathan has moved location to the entrance of the church at the top of the lane.

Adrian measures the ground temperature at -7.3°C and the gate temperature at -7.6°C . K2 meter registered 1.5mG. Both Adrian and Andrea did not sense or feel anything paranormal in this

area at this time. The temperature at the end of this vigil was seen to rise slightly. Adrian believed this was due to the proximity of body heat in this area close to where the temperature readings were recorded over the course of this vigil.

22:05 Andy has set his equipment up just in front of the gates to the church. Nathan has moved to the right of the church entrance in front of a gate to a paddock.

22:10 Nathan can hear a continual tone that sounds the same for about twenty seconds. It is a low pitched humming and does not vary. This then stops and does not occur again.

22:12 Andy takes a temperature reading of -1°C and an EMF sweep shows no activity. Andy observes a car turn into a driveway in the investigation area of the lane.

22:15 Road and air traffic noises occasionally heard. Half moon is very bright and visible with an orange glow to it and bright stars showing with only very patchy areas of cloud to be seen.

22:20 Nathan hears a crack sound emanating from the trees behind him and then back to the almost silent sound that has generally been evident throughout.

Andy can hear voices in the distance and an animal is heard moving in the churchyard.

22:30 Adrian measures the ground temperature at -7.3°C and the gate temperature at -7.6°C . K2 meter registered 1.5mG.

The investigation at this location is coming to an end and all monitoring equipment is put away. All group members meet up and head back towards the meeting point to move onto the next location on our own. Bill's team arrive back at the meeting point as we depart.

Eastfields Corner

Vigil: 22:45 to 23:30

Andy is sat on one corner of the junction with Nathan opposite him. Andrea and Adrian are located at the end of a lane leading to a farm next to a big tree and Trevor is located further down the road. For the positions of the team members see the plan at the top of the next page.

22:45 Next location of the road junction at Eastfield's Corner is reached by group members in two cars and equipment is set up. Nathan stands by a tree to the right-hand side of the road junction. Temperature is very cold by this point and approximately -2°C .

Andrea instantly felt like she was swaying from the moment she got out the car as Adrian set up the equipment, the sensation was like being drunk.

Adrian measures the ground temperature -6.0°C and the air temperature down the farm lane at -7.6°C . K2 meter registered 1.5mG.

22:55 Andrea sensed a car crash had taken place at this junction involving a possible drunk driver, which she believed accounted for her previous experience of feeling drunk – Andrea also received the name *Deborah*. The name Deborah was then used to try and register a response from the K2 meter but without success.

Occasional car passing through this junction. Clear view of the road from both directions for quite some distance and surrounding fields and countryside is very evident/open.

22:57 Nathan observed what appeared to be a shooting star above the main tree at the entrance to the farm at the junction.

23:00 Nathan senses that there is a sudden temperature drop at the area where he is located further down past the junction away from the other group members. Face and area in general felt to be noticeably colder almost instantly.

Andrea and Adrian here the sound of distant church bells ringing to signal the hour from two separate directions. Adrian measures the ground temperature at -7.1°C and the dir temperature down the farm lane at -20.4°C . K2 meter registered 1.5mG.

Trevor takes an EMF reading 0.1, no results.

23:02 Andrea and Adrian hear the sound of an owl.

23:05 Nathan gets impressions of horse and cart images that may have used this road before.

Andy takes a temperature reading of -4.9°C in the centre of the junction. Compass reading as 62° . Andy also observes a short EMF spike at this position and calls Adrian over to check with his EMF meter but no further reading shown on either meter.

23:08 Andy carries out a second sweep and again has a short spike at the same location.

23:10 Animal noises such as deer are heard in the distance by Nathan.

23:13 Nathan hears what sounds like footsteps in the field behind him on the side of the road opposite to the farm entrance.

23:15 Ground temperature -7.9°C .

Adrian measures the air temperature down the farm lane at -33.0°C (this temperature seemed unreasonably low, but Adrian checked it three separate times and also showed team leader Andy the reading)

Adrian's K2 meter registered 1.5mG.

23:20 All group members gather around a particular spot of the road at the middle point of the junction in a circle formation. An EMF reader is placed on the ground and its green light is constant as questions are asked by team members. No change to the light as questions have been asked.

23:21 Andrea picked up name *Debra*.

23:22 Séance tries to contact Debra, no results

23:25 All group members move to the main tree area by the entrance to the farm and the EMF reader is placed on the road here. No change to the light in this location as questions are asked. Andrea senses a name of *Deborah* and asks questions to see if there is a response to this, none received.

23:30 Investigation for this location ends. Nathan leaves for the evening, other remaining members head onto Tom Knocker's Pond.

Tom Knocker's Pond

Pre-Vigil

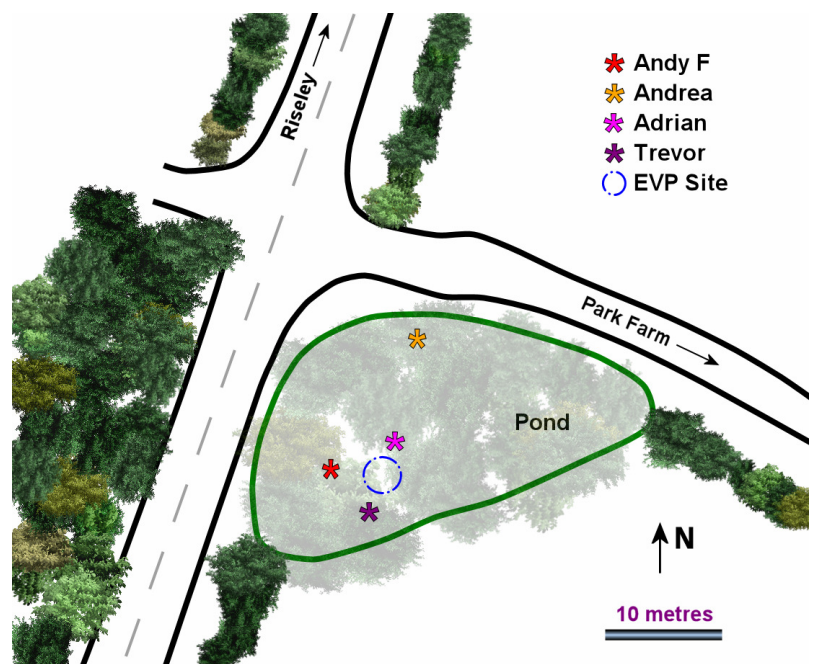

Notes of specific times could not be made by Adrian on this vigil due to the ink in his ballpoint pen freezing. This part of the investigation is also split into two parts with the first being a silent vigil followed by the team using a shack hack. For the first part of the investigation Trevor is located in the pond itself with the rest of the team on the slope nearby. For the positions of the team members see the plan on the right.

Vigil: 00:00 to 00:10

00:00 Adrian measures the K2 meter registered 1.5mG.

The ten minutes of this vigil was held in silence, during this

time none of the team did sense any paranormal activity in the area except Andy who captured a large bright orb near a tree and then it was gone when he re-took the photograph.

00:10 Vigil ends and the team decide to conduct a Shack Hack experiment.

Shack Hack Experiment Transcript

Transcript record taken from DVD camcorder footage of the experiment using a second by second analysis of the film footage to provide an accurate report of what was recorded.

00.02.17 Adrian: *Can you tell me who you are please?*

Shack Hack: Various intermittent sounds

00.31.22 Adrian: *Can you say that again please so I can clarify as it can be difficult to hear?*

Shack Hack: Various intermittent sounds

00.40.09 Adrian: *Can you tell me what your name is please?*

00.50.16 Adrian turns to Andrea: *What do you think that said?*

Response from both Andrea and Trevor, who is next to Adrian, is inaudible on the recording

01.01.09 Adrian: *Do you prefer being called Pete or Peter?*

Adrian: *Are you there Peter?*

01.18.15 Shack Hack: *England*

01.18.17 Adrian: *England*

01.20.21 Adrian: *Are you there Peter?*

01.29.01 Adrian: *Why do you hang around by the pond?*

01.35.03 Shack Hack: *He did*

01.37.08 Adrian then asks Andrea: *What do you think that said?*

Andrea: *He did*

Adrian: *Yea he did*

01.39.03 Adrian: *He did what, what did he do to you?*

01.48.22 Adrian: *What did he do?*

Shack Hack: Various intermittent sounds

01.59.13 Adrian: *My name is Adrian, can you tell me what your names is please?*

Shack Hack: Various intermittent sounds

02.16.58 Adrian: *Is there anyone here wishes to communicate or give us a message; you need to tell me who you are?*

Shack Hack: Various intermittent sounds

02.40.16 Adrian: *Can you tell me how old you are please?*

Shack Hack: Various intermittent sounds

02.50.01 Adrian turns to Andy who is just behind him and asks: *Did you hear anything?*

- Andy states that he did
Adrian: *That this was underneath the meta-narrative, it went eeeeeight*
Adrian motions up and down with his right hand.
Andrea: *Yes*
Adrian: *Can you confirm for me that you are eight years old, you are eight?*
- 03.02.02 Shack Hack: According to the film footage the audio response is *No*. However Adrian interprets this as *Yes*. Andy has checked this a number of times and it still sounds like *No*
- 03.03.24 Adrian: *Yes and this was a child's voice*
- 03.03.06 Adrian: *Can you tell me what your name is?*
- 03.08.22 Adrian: *Oh yea*
- 03.13.06 Adrian: *Are you a boy?*
- 03.15.08 Adrian: *Are you a girl?*
- 03.26.11 Adrian turns to Andrea and says: *It sounds like a girls voice what do you think?*
Andrea: *Yes*
- 03.53.23 Andy: *Can you ask*
Adrian: *That is alright anyone can jump in*
Andy: *I would just like to ask what year it is*
- 03.40.24 Andy: *What is the year?*
Shack Hack: Various intermittent sounds
- 03.47.13 Shack Hack: *John*
- 03.50.06 Adrian: *I thought that said John actually*
- 03.54.24 Adrian: *Can you tell me what the year is please?*
- 04.03.17 Adrian: Shack Hack: Various intermittent sounds
- 04.11.17 Adrian: *Is it the seventeenth century?*
- 04.16.20 Adrian: *Is it the sixteenth century?*
Shack Hack: Various intermittent sounds
- 04.23.18 Adrian then tells the team: *It is possible that a child from the sixteenth century would not know he is in the sixteenth century*
- 04.28.13 Andy: *Yea, ask is there more than one spirit here?*
- 04.32.03 Adrian: *Can you tell me how many people are watching us at this moment that are not in our team?*
- 04.04.23 Shack Hack: *A lot*
- 04.41.22 Adrian and Andrea at the same time: *A lot*

04.48.22 Adrian: *Can you have a count up and give me a number, you can estimate how many people do you think are here watching us at this moment?*
 Shack Hack: Various intermittent sounds

05.04.01 Shack hack: *Canada*

05.04.03 Adrian: *Canada*
 Shack Hack: Various intermittent sounds

05.18.42 Adrian: *Have you got your mother with you?*
 Shack Hack: Various intermittent sounds

05.26.17 Adrian: *Why do you hang around here what's the appeal?*

05.31.21 Adrian: *Why do you stay here?*

05.40.30 Shack hack: *Quite a big one*

05.40.3 Adrian: *Quite a big one*

05.58.00 Adrian: *Could you give me an explanation as to why you would want to hang around a cold muddy pond in the middle of November? Why are you here?*
 Shack Hack: Various intermittent sounds

06.09.11 Adrian: *Do you want to be here?*
 Shack Hack: Various intermittent sounds s

06.16.17 Adrian: *Are you happy here?*

06.24.24 Adrian: *Can you tell me again what your name is please*
 Shack Hack: Various intermittent sounds

06.36.14 Adrian: *Can you tell me what my name is?*
 This is followed by a loud whistle that is picked up on audio by the DVD camcorder

06.37.00 Adrian turns to the team and asks: *Did you hear that?*
 The team agree that they all heard a loud whistle. Adrian thinks it came from his right in the direction of the path and Andy thought is come from the direction of the road. Team agree it was not the box as it was loud. Agree it was someone calling their dog

08.34.00 experiments resumes with the name Frank coming from the Shack Hack

08.34.01 Adrian: *Just got the name Frank*

08.42.04 Adrian: *Can you clarify, can you say that back to me, is your name Frank?*
 Shack Hack: Various intermittent sounds

08.48.11 Adrian: *Hmm just something underneath that isn't there*

08.51.22 Adrian: *Am I right in thinking your name is Frank?*

08.55.04 Adrian: *hmmmmm*

Shack Hack: Various intermittent sounds

At this point a dog is heard barking by Andy and this turns out to be a deer

13.55.13 Adrian: *Philippe are you with us?*

14.01.21 Adrian: *Can you tell me what my name is?*

14.11.17 Adrian: *I am happy to talk to anyone if you are there Thomas can you say yes?*

There is no reason why the DVD camera that was filming the Shack Hack experiment should have stopped filming at this point as the camera was still on and the batteries were working and the disc was not full. Yet all the team members are in shot when the film stops (the camera is located on top of the slope looking down at the team).

However, it is worth mentioning that Philippe can be considered to be a typical French name. To follow on from this Andy's name was then called out, Adrian asked why they wanted to speak with Andy and the reply was believed to be 'leave'. No more intelligent communication was achieved before the vigil ended

Post-Investigation

Nathan: A group photograph was taken at the end of the Eastfield's Corner vigil after which Nathan departs for home. Nathan experienced two things, one being a sudden temperature drop at this last location and what seemed like footsteps from a field behind him.

Trevor: On viewing the photos after, where Andrea said she picked up the name Debra, Trevor caught an orb shaped object in two separate photos. The experiment with the Franks Box was interesting as we had a lot of contacts coming through, although we could make out some of them, unfortunately time was against us.

Andy: EVP needs to be checked further to try and work out if there is an explanation for the break in filming and any other paranormal information to be added.
