Elaine – “We mean you no harm”
Andy – “Try and turn the torch on so the landlord can go to bed”
Gavin – “If you don’t have enough energy to turn that torch on just affect one of us in some way so that we know that that’s you telling you can’t do it but you’d want to if you could or say your name into the end of this little box I’m holding it’ll capture your name, capture whatever you say to us we’ll hear it when we play it back. We just want to know if there is someone here and anything you can do to show us that will be really good, but we’d really like it if you could turn that torch on.”
Stuart – “We know you can do it because you did that for us earlier you made it go brighter, and you made it go dimmer so if that’s the same astral being here with us we know you can do it we’d really appreciate it, it would show us that you want to talk to us, that you know that we’re here, and that you’re here more importantly”
Stuart – “Or is it time for bed and you don’t want to do it”
04:33:54 TORCH ACTIVATES

Stuart – “Thank you very much; we really, really appreciate that
Gavin – “We know that’s not an easy thing for you to do so thanks for that”
Stuart – “Yeah”
Stuart – “You have really made our day, but is that you way of saying it’s now time for us to go, uh, or are you still happy for us to be here?”

Andy – “Could you do the same with the green light on the table?”
Andy – “Make that go up with all the different coloured lights or would you prefer us to go by putting the torchlight on”
Stuart – “Would you like to see us again sometime?”
Stuart – “We would really love to come back and chat again, we’ve really enjoyed it, if you would like us to come back to talk to you again please try one last time to turn on the torch use your energy we would really appreciate it”

Andy – “it may not take as much power”

Gavin – “Come on you can make electricity jump across a gap you must be able to wave your hand in front of that and make the lights go up”

Stuart – “Just one light that’s all we ask”

Gavin – “Trying sitting on it, jump up on the table and sit on it”

Gavin – “Is that it is it show over guys, or are you gonna give us one last treat... go on”

04:40:12 Stuart – “We’re due to go in a minute so if you can do the torch or the green light please could you do that for us one last time.”

04:41:24 – Strange noise on recording

04:41:34 TORCH ACTIVATES

Stuart – “Well thank you very much for that...we shall now leave you in peace”

Gavin – “If you could turn the torch of for us”

04:41:56 TORCH DEACTIVATES

Gavin – “Thanks”

Stuart – “Thank you, you have done that the most times for us, as far as I’m aware so four times we really, really appreciate that”

Gavin – “I think it only fair that we leave you in peace now”

Stuart – “Thank you”

Gavin – “Thank you”

Stuart – “Thank you for all of your efforts”

Gavin – “I’m turning off the equipment now”

Session ends

Post investigation

Andy’s audio and visual recordings clearly recorded vocal conversations going on in other areas of the building that make it difficult to distinguish any EVP activity against a background of audio from known sources, which in turn invalidates the audio recording.
