Report By	Andrew Fazekas	
Team Members	Andy, Ben. Paula, Karl. Robin	

Background

In 1915 a resident of Ampthill was returning home from doing war work in a Luton factory to the small farm where her parents lived. Suddenly she heard horse's hooves coming along the narrow lane on which she was walking. Fearing she would be injured she threw herself in a ditch. As she lay there, she heard the pounding of the horse's hooves and the jingling of harnesses as if a great coach was passing by on the way to Houghton House, but when she looked there was nothing there. It is also said that shadowy figures have been seen around the house which quickly vanish when looked at.

This was a daytime investigation.

11.00 Investigation Begins in the storeroom off the great hall with a spirit talker app.
Four of us get seated, (Robin hasn't arrived yet), cat balls are dotted around and K2's out.
Karl – this reminds me a bit of the film The Omen, where the bricks fall off of the top.
11.16 Go fuck yourself!
The cat ball closest to Ben which had been placed in a hole in the brickwork, flies out across the room lands and hits Andy on the foot.
11.16 Black death
Karl – It didn't just fall out, go down and roll. The cat ball was projected. It came out with force
Andy – I'm impressed with that!
Ben – It literally launched itself to Andy's feet.
11.18 Andy – Told you this was more active.
11.19 Watched
Andy – Are we being watched? I thought maybe the wind would blow through. It came out with some force. Is there any spirit here that wishes to talk to us?
11.21 Archfiend
Andy – Are you trapped in here?
Paula – Did you live back in the 1800's?
Andy – Are you the woman that's been seen at the window?
Ben put the ball Back in the spot and blew on it to see if he could make it move as before, to debunk it. We established that the ball wasn't bouncy either. Nor was jammed in.
11.22 The noise was him
11.22 Please get out
Robin then arrives and Ben explains what's happened so far.

Paula – Did you come and visit here to go hunting?
Robin – Did you know the lady who died here because that's around the time she would have been ill, the 16/1700's. Am I close? My memory is going.

We hear people nearby and talk about school kids visiting.
